OFFICIAL MEMORANDUM

DATE: March 2, 2016
TO: All CSTAR Providers
FROM: Nora K. Bock, DBH Director of Adult Community Treatment
RE: ADA Assessment Requirements in CIMOR

CIMOR will no longer require the six ADA assessments (ASI, Presenting Situation, Treatment History, HIV/STD/TB Risk, Medical Evaluation, and Service Needs) be in a completed status before a program assignment can be added and billing can occur. These business rules in CIMOR have been turned off for CSTAR programs only. This change is being implemented to reduce any barriers associated with engaging and enrolling Disease Management consumers. However, organizations **are still expected to complete these assessments** as early as possible in the treatment episode without impeding the consumer's engagement into treatment.

If you have any questions, you may contact Rhonda Turner at rhonda.turner@DMH.mo.gov or email the CIMOR **DBH Support Center** by **Logging In** and selecting the **Help Ticket** option found on the left side menu of the portal, <https://portal.dmh.mo.gov>.
