

## Behavioral Health Profile

### Henry County

May 2014

Located in Southwest Missouri, Henry County has a population of 22,059. Among Missouri's 114 counties plus the city of St. Louis, Henry County ranks 52 in terms of population. Henry County's unemployment rate in 2013 was 6.4%. This was lower than the statewide unemployment rate of 6.5%. In 2012, the poverty rate was 16.6% which was higher than the statewide poverty rate of 16.2%. The median income of the county was \$41,189.

### Substance Use and Abuse in Henry County

The availability of county-level data on substance use and abuse is limited. The Missouri Student Survey can provide estimates for youth in most Missouri counties. This survey is administered in even-numbered years to 6th through 12th grade students in participating school districts.

Healthy People 2020, a set of federal goals, has established objectives to reduce tobacco initiation and use by adolescents and adults. In Henry County, 50.7% of youth believe that it would be easy to get cigarettes and 35.1% have friends who smoke.

Youth who use alcohol are at greater risk of developing abuse problems later in life. An estimated 56.7% of youth in Henry County believe that it would be easy to get alcohol and 52.8% have friends who drink alcohol.

Marijuana use is of increasing concern across the state. In 2012, 26.6% of Henry County youth said that marijuana is easy to get, 21.5% report having at least one friend that uses it and 6.8% said that smoking marijuana is 'no risk at all'.

In Henry County, 11.4% of youth believe that it would be easy to get other drugs such as cocaine, methamphetamine, and ecstasy.

### Substance Use Consequences in the County

Health: In 2011, Henry County residents had a total of 88 alcohol-related and 105 drug-related hospitalizations. In addition there were 82 alcohol-related and 84 drug-related ER visits that did not include a hospital stay.

Treatment: In 2012, 30.5% of mothers in Henry County reported smoking during their pregnancy. This is an increase from 2011 (25.9%).

#### Current Substance Use for Grades 6 - 12, 2012 data

	30 Day Use County	30 Day Use Missouri	Age of First Use County
Cigarettes	8.3%	10.6%	12.29
Alcohol	12.8%	16.9%	12.55
Binge*	6.1%	9.6%	N/A
Marijuana	3.3%	8.6%	13.38
Inhalants	1.2%	2.3%	12.05
RX Abuse	3.0%	4.7%	unknown
OTC Abuse	3.3%	3.5%	unknown
Synthetic	1.5%	2.9%	unknown

#### Current Substance Use for Ages 18+ in the Southwest Region, 2008-10 data

	30 Day Use Region	30 Day Use Missouri
Cigarettes	<u>30.1%</u>	28.5%
Alcohol	51.1%	54.2%
Binge**	23.4%	25.3%
Marijuana	5.7%	6.0%
Illicit Drug excluding MJ	<u>2.8%</u>	2.8%

#### Substance Abuse Treatment in Henry County

Total	262
Alcohol Primary	103
Marijuana Primary	63

Law Enforcement: In 2012, Henry County had 105 DWI arrests, 72 liquor law violations and 154 drug-related arrests. Henry County had 7 methamphetamine laboratory seizures in 2012 and 0 in 2013. The manufacture of methamphetamine has been particularly problematic for rural Missouri. Specifically, labs tend to be clustered primarily in the counties surrounding St. Louis and secondarily in the southwest and southeast areas of the state.

### Traffic Crashes in Henry County

Alcohol-related traffic crashes increased in the last year (from 11 in 2011 to 29 in 2012). Alcohol-related crashes are more likely to produce fatalities and injuries compared to non-alcohol-related crashes.

2012 Number of Alcohol-Related Crashes by Severity				2012 Number of People Injured / Killed in Alcohol and Drug-Related Crashes			
Total Crashes	Fatal Crash	Crash w/ Injury	Crash w/ Property Damage	Alcohol Fatalities	Alcohol Injuries	Drug Fatalities	Drug Injuries
29	1	14	14	1	21	1	2

### Mental Health in Henry County

Individuals struggling with serious mental illness are at higher risk for homicide, suicide, and accidents as well as chronic conditions including cardiovascular and respiratory diseases and substance abuse disorders. In state fiscal year 2013, 533 Henry County residents received treatment for serious mental illness at publicly-funded facilities. See table for details. While there is data on those who receive treatment, data on mental health in the general population is very limited. This is especially true at the local level.

In Southwest Missouri, 22.8% of those 18 and older had a mental illness in the past year with 6.3% having a serious mental illness. Serious mental illness is defined as any of the mental disorders asked about and 'these disorders resulted in substantial impairment in carrying out major life activities'.

Approximately 8.2% of Southwest Missouri residents ages 18+ had at least one major depressive episode in the past year. A major depressive episode is characterized by an extended period of depressed mood, loss of interest or pleasure, and impaired functioning. Typically females are more likely to report having had a major depressive episode.

Students (6th-12th grade) in the county were asked about their mental health. 9.8% had considered suicide in the last year, 5.3% made a plan, and 1.2% actually attempted, resulting in an injury. In 2012, 2 Henry County residents committed suicide. Nationally, males are about four times more likely to commit suicide than females. Older males have higher rates of suicide than younger males.

Comprehensive Psychiatric Services Numbers Served in Henry County		
	<u>FY2012</u>	<u>FY2013</u>
Total	546	533
Adjustment Disorder	31	17
Anxiety Disorder	184	125
Developmental Disorder	6	*
Impulse Control Disorder	61	38
Mood Disorder	337	227
Psychotic Disorder	64	51

These numbers indicate the number of clients seen with each diagnosis per year. An individual client may have more than one admission within a year.
