

IPS SUPPORTED EMPLOYMENT

**Work is a Mental Health
Intervention!**

**BEST CASE PRACTICES
FOR MENTAL HEALTH
&
VOCATIONAL REHABILITATION**

Data for Context & Perspective

- Research states that 60 – 70% of people with severe mental illness want to work competitive jobs
- National & State Average = 7 - 11%
- MO IPS sites range from 26% - 71%
- MO mean = 40% (as of 4th Quarter 2015)

People served in Missouri

- 2009 = 423
- 2015 = 826

People working in Missouri

- 2009 = 30 %
- 2015 = 38%

Number of Sites (IPS Fidelity)

- 2009 = 6
- 2015 = 13

IPS, what is it?

- A standardized approach to supported employment for people with long-term impairments due to severe mental illness*
- Evidence-based supported employment is also known as individual placement and support (IPS).
- * all principles are applicable for people with co-occurring MI & Substance Use

Who gets IPS ?

Where do they get it?

- IPS is ONLY provided to individuals with serious & persistent mental illness who are coded MSD (Most Significantly Disabled) by VR and who qualify to receive either CPR or CSTAR services.
- ONLY for individuals receiving services from community mental health providers with Community Rehab Provider (CRP) agreements to provide IPS.
- Additional funding provided by Medicaid & DMH with specific documentation.

Mental Health & VR missions

- IPS is a dynamic partnership between the two agencies.
- Missions of each agency focus on helping people recover from their disability & for some that means helping people get jobs and IPS is shown to increase employment outcomes.
- **People will surprise you!**
