

Guidance Document for Assessment Work-Around

*The timeline for completion of the initial assessment and treatment plan for the **ADA DM population only** has been **extended to 30 days** from the date of CSTAR admission.*

There are six required assessments in CIMOR:

- Service Needs
- ASI-Addiction Severity Index
- HIV/STD/TB Risk Assessment
- Medical Evaluation
- Treatment History
- Presenting Situation

All six assessments must be saved in a “Completed” status.

WORKAROUND: The following specific items must be completed in order for the assessments listed to be saved in a **Completed** status:

- **Presenting Situation** – completion of the two gambling questions.
- **ASI-Substance** tab – completion of **question 24** and enter the **interviewer’s severity range** for the consumer’s **alcohol problems** and **drug problems**.
- **ASI-Psychiatric** tab – completion of **questions 12 and 13** and enter the **interviewer’s severity range**.

NOTE: The assessment and treatment plan for these individuals should indicate they are an ADA DM consumer.
