

Missouri Division of Alcohol and Drug Abuse

Bulletin Number: FY10–Clinical-14	CLINICAL SERVICES BULLETIN	Effective Date: March 1, 2010
<i>New</i>	Subject: Services to Members of the Missouri National Guard	Number of Pages: 1

1. Programs Affected

- 1.1 Primary Recovery Plus (PR+); Enhanced PR+; ADA Corrections PR+; CSTAR – Adolescent, General Adult, Opioid, Women & Children; SATOP—Offender Management Unit (OMU), Offender Education Program (OEP), Adolescent Diversion Education Program (ADEP), Weekend Intervention Program (WIP), Clinical Intervention Program (CIP), Youth Clinical Intervention Program (YCIP), and Serious and Repeat Offender Program (SRQP).

2. Purpose

- 2.1 To reduce barriers to treatment for members of the Missouri National Guard with substance use disorders.

3. Policy

- 3.1 The Missouri National Guard has approximately 11,500 citizen-soldiers, of which 1,500 are currently deployed overseas. Many of these soldiers lack access to health benefits and substance use disorder treatment and recovery services.

4. Policy

- 4.1 To support Missouri's National Guard, the Division of Alcohol and Drug Abuse is authorizing contracted providers to waive the standard means test (SMT) for active-duty Guard service members, thereby offering access to consultation, evaluations, assessments, treatment, and recovery support services at no cost except for Substance Abuse Traffic Offender Program (SATOP) services.
 - 4.1.1 Active-duty Guard members mandated to complete a SATOP program will be required to pay the applicable SATOP fees; however, waiving the SMT results in payment of the minimum allowable SATOP program fee.
- 4.2 Contracted providers must have an identified military services coordinator whose name and contact information has been submitted to the organization's respective regional ADA District Administrator. This information will be included in a military services referral contact list.

5. Procedures

- 5.1 Missouri National Guard service members would self-identify and present their military identification cards.
- 5.2 The SMT is waived by entering zero (0) into the SMT form, as well as, in Consumer Demographics under Benefits/Eligibility on the SMT screen in CIMOR.
- 5.3 Military service data must be collected on all consumers and entered in CIMOR under Consumer Demographics.
