

DMH Contact Information for Long-Term Care Facilities Resident assessments Rule (§483.20)

Section 1919(e) (7) (B) (iii) of the Act added a requirement that a nursing facility must notify the state mental health authority or intellectual disability authority for resident evaluation promptly after a significant change in the mental or physical condition of a resident with a mental illness or intellectual disability. **Please note that that the rule does not change or replace the need for completing the required MDS assessment for change in condition and /or submitting updated DA124 forms to DHSS COMRU.** Please include the full name of the Individual, the date of birth, the DCN and a summary describing the change in condition. Please send the notification to:
