

Support Broker Agencies by Area

PROVIDING INFORMATION AND ASSISTANCE

A Support Broker (SB) provides the individual or their designated representative (DR) with information & assistance to secure the supports and services identified in the Individual Service Plan (ISP). The Support Broker does not do these tasks for the individual/DR, but provides information and assistance in order for the individuals/DR to fulfill their employer related responsibilities. The goal for everyone in SDS is to move towards 'Independence' and for individuals and families to have the support they need in order to self-direct services.
