

Behavioral Health Profile

Monroe County

2018

Monroe County is located in Central Missouri and had a population of 8,637 in 2016. Monroe County ranks 96 in population size among Missouri's 114 counties plus the city of St. Louis. The 2016 unemployment rate in the county was 5.7%. This was lower than the statewide unemployment rate of 6.6%. In 2016, the poverty rate was 15.4% which was higher than the statewide poverty rate of 14.0%. The median income of the county was \$41,630.

Substance Use in Monroe County

The availability of county-level data on substance use is limited. The Missouri Student Survey convenience sample can provide estimates for youth in most Missouri counties. This survey is administered in even-numbered years to 6th through 12th grade students in participating school districts. Adult data are available at the regional level from the NSDUH. See page 2 for graph.

Alcohol is one of the most common substances used by Missouri youth. In Monroe County, 15.5% youth have used alcohol in the past 30 days. An estimated 42.9% believe that using alcohol presents only 'slight' or 'no risk' of harm. Similarly, approximately 29.0% of youth believe that there is 'slight' or 'no risk' of harm in binge drinking once or twice a week. About 54.1% of youth believe that it would be easy to get alcohol. 47.3% of youth have at least one friend that uses alcohol.

The average age of first alcohol use is 12.8. Among Missouri adults, alcohol is the most commonly used substance. In the Central region, approximately 54.9% of adults currently drink alcohol, and 26.7% have had 5 or more drinks of alcohol on a single occasion in the past 30 days.

Cigarette use, in both standard and electronic forms, is of concern across the state. In Monroe County youth, the rate of e-cigarette use is higher than the rate of standard cigarette use. The average age that county youth first use standard cigarettes is 13.0. An estimated 46.4% of youth believe that it would be easy to get standard cigarettes and 36.6% to get e-cigarettes. 29.5% of youth have at least one friend that uses standard cigarettes. An estimated 20.2% of youth believe there is 'slight' or 'no risk' to smoking standard cigarettes, while 41.8% believe there is 'slight' or 'no risk' to smoking e-cigarettes. Most youth obtain cigarettes and e-cigarettes from their friends. In the Central region, 31.1% of adults currently use cigarettes compared to 29% statewide.

Marijuana use in Missouri youth continues to be of interest, particularly with recent shifts in legality of adult use across the nation. Around 7.5% of youth and 7.3% of adults report current marijuana use. In Monroe County, 2.7% of youth use marijuana. In 2018, 27.9% of youth said that marijuana is easy to get. Around 85.2% believe that smoking marijuana is wrong, and 24.2% report having at least one friend that uses marijuana. The average age of first use is 14.8. The majority of youth obtain marijuana from their friends, a dealer, or a family member. Across the state, around 46.6% of adults believe there is 'slight' or 'no risk' of harm from smoking marijuana once or twice a week. In Monroe County youth, approximately 32.6% believe that there is 'slight' or 'no risk' of harm from smoking marijuana once or twice a week.

Prescription drug misuse is of growing concern both across the nation and in Missouri. In Monroe County, 21.4% of youth believe that it would be easy to get prescription drugs that were not prescribed to them. Most youth report that there is a risk of harm when misusing prescription drugs, but 13.1% of youth believe that there is 'slight' or 'no risk at all'. About 97.3% of youth believe it would be wrong to use prescription drugs not prescribed to them. Most youth get prescription drugs from a friend or family member. Pain medication is the most commonly misused prescription medication, with 50.0% of those misusing prescription drugs in Monroe County county saying they misuse pain medication. 4.1% of adults in the Central region reported misuse of prescription pain medication over the past year.

Substance Use Consequences in the County

Health: In 2015, Monroe County residents had a total of 3 alcohol-related and 1 drug-related hospitalizations. In addition there were 6 alcohol-related and 9 drug-related ER visits that did not include a hospital stay.

Treatment: In 2017, 50 individuals were admitted into Substance Abuse Treatment Programs. A total of 15 were primarily due to alcohol, 18 were primarily due to marijuana, and less than 5 were primarily due to prescription drugs.
