CLINICAL EXPERIENCE

- 12/13 –current** **Psychologist I**
Fulton State Hospital, Fulton, MO
Conducting group psychotherapy, individual psychotherapy, and psychological assessments in an in-patient intermediate-security forensic hospital for clients with chronic severe mental illness. Client population consists of ethnically diverse adults who have been voluntarily committed to the hospital by a guardian, deemed permanently incompetent to stand trial, or found not guilty by reason of insanity by the court. Common psychological concerns include psychotic, mood, developmental, anxiety, and personality disorders. Duties include writing treatment plans, conducting quarterly treatment plan reviews, providing case management, report writing, presenting results of psychological testing, managing the unit schedule, and participation in weekly treatment team meetings. Theoretical orientation: cognitive-behavioral and behavioral.

6/13 –10/13**Psychology Resident****Fulton State Hospital, Fulton, MO**

Conducting group psychotherapy, individual psychotherapy, and psychological assessments in an in-patient intermediate-security forensic hospital for clients with chronic severe mental illness. Client population consists of ethnically diverse adults who have been voluntary committed to the hospital by a guardian, deemed permanently incompetent to stand trial, or found not guilty by reason of insanity by the court. Common psychological concerns included psychotic, mood, developmental, anxiety, and personality disorders. Duties include developing treatment plans, conducting quarterly treatment plan reviews, providing case management, report writing, presenting results of psychological testing, managing the unit schedule, providing clinical consultation, and attending trainings. Theoretical orientation: cognitive-behavioral and behavioral.

Supervisor: Eric Martin, Ph.D.**9/12 – 5/13****Post Doctoral Fellow****Larned State Hospital, Larned, KS**

Conducted group and individual psychotherapy, psychological assessments, and yearly reviews for the court in an in-patient forensic hospital for residents who had been found by the court to meet the criteria as a Sexually Violent Predator. Client population consisted of ethnically diverse adults who have been civilly committed as Sexually Violent Predators. Common psychological concerns included paraphilias, personality, and mood disorders. Duties included writing treatment plans, quarterly treatment plan reviews, facilitating treatment team meetings, report writing, case presentations, and participating in didactic training. Theoretical orientation: cognitive-behavioral.

Supervisor: John Reid, Ph.D.**9/11 – 8/12****Psychology Intern****Fulton State Hospital, Fulton, MO (APA accredited)**

Conducted group and individual psychotherapy, psychological assessments, and forensic assessments in an in-patient maximum-security forensic hospital for clients with chronic severe mental illness. Client population consisted of ethnically diverse adults who were voluntary committed to the hospital by a guardian, deemed incompetent to stand trial, or found not guilty by reason of insanity. Common psychological concerns included psychotic, mood, developmental, and personality disorders. Duties included writing treatment plans, conducting quarterly treatment plan reviews, providing case management, report writing, presenting results of psychological testing, case presentations, participating in didactic training, and data coding and entry. Theoretical orientation: cognitive-behavioral and behavioral.

Supervisors: Eric Martin, Ph.D., Lee Ann Morrison, Psy.D., Jeff Kline, Ph.D., Tara Tubbesing, Psy.D., & Niels Beck, Ph.D.

6/10 –4/11**Psychology Trainee****La Cheim Behavioral Health Services, San Pablo, CA**

Conducted group and individual psychotherapy in a partial hospitalization program for individuals with severe mental illness. Client population consisted of ethnically diverse adults recently released from psychiatric hospitalization. Common psychological concerns included mood, psychotic, developmental, personality, and substance disorders. Duties included report writing, presenting results of psychological testing, case presentations, and participating in didactic training.

Theoretical orientation: empirically based eclectic.

Supervisors: Portia Polner, Ph.D. & Cori Pansarasa Psy.D.

9/09 –06/10**Psychology Trainee****Vacaville Psychiatric Program California Medical Facility**

Vacaville, CA

Conducted suicide and violent risk assessments for clinical research protocols in a correctional psychiatric hospital. Client population consisted of ethnically diverse incarcerated adult males with psychiatric illnesses. Other duties included report writing, data coding and entry, participating in didactic training, presenting two didactic trainings for the facility, and development of sex offender risk assessment reference.

Theoretical orientation: empirically based eclectic.

Supervisors: Robert Horon, Ph.D. & Majid Yasaie, Ph.D.

9/08 – 8/09**Psychology Trainee****Sharper Future, Pacific Forensic Psychology Associates**

San Francisco, CA

Conducted individual and group psychotherapy in forensic-based outpatient clinic. Client population consisted of ethnically diverse adults mandated to receive psychotherapy due to either a sexual or drug offense. Common psychological concerns included sexual, substance abuse/dependence, personality, mood, and anxiety disorders. Duties included conducting intake and actuarial risk assessments, writing treatment plans, and participating in didactic training.

Theoretical orientation: cognitive-behavioral and psychodynamic.

Supervisors: Lisa Kalich, Psy.D., Tom Tobin, Ph.D., & Mary-Perry Miller, Ph.D.

6/07 – 6/08**Psychology Trainee****Kurt and Barbara Gronowski Clinic****Pacific Graduate School of Psychology, Los Altos, CA**

Conducted individual psychotherapy in a community-based outpatient-training clinic. Client population consisted of ethnically diverse adults with a variety of psychological concerns, including substance, anxiety, personality, and mood disorders. Duties included performing intake assessment, writing treatment plans, and participating in case conferences.

Theoretical orientation: psychodynamic.

Supervisor: Robin Press, Ph.D.

6/07 – 4/08**Clinic Manager****Kurt and Barbara Gronowski Clinic****Pacific Graduate School of Psychology**, Los Altos, CA

Duties included risk consultations, phone screening, practicum student supervision, coordinating supervision scheduling, updating therapeutic resources, and coordinating supervisor coverage for clinic.

Supervisors: Sandra Macias, Ph.D., & Robert Reiser, Ph.D.**RESEARCH EXPERIENCE****5/09 – 12/10****Dissertation in Clinical Psychology****Pacific Graduate School of Psychology**, Palo Alto, CA,*“Understanding the Post-Commitment Evaluation Process for Civilly Committed Sexual Offenders.”*

Research describing the process and procedures utilized by post-commitment evaluators including common risk assessments, measures for determining change, diagnostic assessment, and determination of recommendation for continued civil commitment.

Final defense: December 8, 2010.

Committee: Rebecca Jackson, Ph.D., Rowena Gomez, Ph.D., & Joyce Chu, Ph.D.**9/07 – 3/11****Research Assistant****Forensic Psychology Research Group****Pacific Graduate School of Psychology**, Palo Alto, CA

Assisting with several forensic-related research projects examining the prevalence rates for female sex offenders, correlations of risk assessment and recidivism in a civilly committed population of sexual offenders, and the relationship between age of onset of deviant sexual interests and criminal activities. Duties included reviewing the literature, writing manuscripts, and coding and entering data.

Supervisor: Rebecca Jackson, Ph.D.**8/04 – 12/04****Research Assistant****University of Idaho**, Moscow, ID

Assisted with a study assessing mortality salience and ego development. Duties included training in Washington University Sentence Completion Test of Ego Development, administering assessments to participants, and data entry.

Supervisor: Kenneth Locke, Ph.D.
