COMMUNITY SUPPORT 101

Presented by
Rhonda Turne and Susan Blume

October 2013

OVERVIEW OF TRAINING

- Introduction – why are we doing this training?
- What is community support?
- What’s community support but not billable?
- What is not community support?
- Documentation
- Twenty question post test
- Q&A opportunity
- Conference call for follow-up

INTRODUCTION

- Why do we need to conduct a training on Community Support?
  - Significant changes have been made to the community support service
  - Community support is a new concept for some providers and very familiar to others
INTRODUCTION

History of Community Support Services
Have we gotten off track?
Getting back on the track to recovery

FEDERAL DEFINITION OF REHABILITATION

1. Restoration of basic skills necessary to function independently in the community
2. Redevelopment of communication and socialization skills
3. Family education and other family services exclusively related to the treatment or rehabilitation of the covered individual
4. Interventions which will assist individuals to build capacity to gain access to needed medical, social, educational and other services

WHAT'S NEW ABOUT COMMUNITY SUPPORT?

New definition
New staff qualifications
New training requirements
New key service functions
NEW DEFINITION

♦ Community Support consists of specific activities with or on behalf of a person in accordance with an individualized treatment plan.
♦ Services are provided to maximize an individual's immediate and continued community functioning while achieving and sustaining recovery/resiliency from mental illness and/or substance use disorders.
♦ These services are delivered in an amount and scope defined by each individual's plan, and not all plans will contain all services.

FOUR DIMENSIONS OF RECOVERY

♦ Health
♦ Home
♦ Purpose
♦ Community

NEW DEFINITION

♦ Community support services for both adults and children focus on helping individuals develop skills, access resources and learn to manage illness in order to be successful in the living, working, learning, and social environments of their choice.
♦ Community Support staff teach, model, and practice skills with persons served in order to increase self sufficiency and independence. The specific skills and supports are addressed on an individualized treatment plan (ITP) and based on the life domains that the person has identified as being impacted directly or indirectly by their serious mental illness, or substance abuse, or both.
♦ Community support services are time-limited based on recipient need, and rehabilitative in nature.
**NEW DEFINITION**

- Community Support for children and youth is designed to coordinate and provide services and resources to children, adolescents and their families as necessary to promote resiliency.
- The focus is on teaching/modeling developmentally appropriate skills, necessary for positive self esteem, a sense of identity, positive relationships with family and peers, social competence, and success in school.

---

**NEW DEFINITION**

- The specific skills and supports are addressed on an individualized treatment plan (ITP) and based on the life domains that the child/family have identified as being impacted directly or indirectly by their serious emotional disturbance, or substance abuse, or both.
- A key in promoting resiliency is building on the strengths of the child's natural support system which is also a key element of the ITP.

---

**NEW STAFF QUALIFICATIONS**

- A mental health professional as defined in 9 CSR 10 – 7.140 (2) Q:Q:
- An individual with a bachelor's degree in a human services field, which includes social work, psychology, nursing, education, criminal justice, recreational therapy, human development and family studies, counseling, child development, gerontology, sociology, human services, behavioral science and rehabilitation counseling;
- An individual with any four year degree and two years of qualifying experience;
- Any four year combination of higher education and qualifying experience, or
- An individual with four years of qualifying experience.
NEW STAFF QUALIFICATIONS
Qualifying experience must include delivery of service to individuals with mental illness, substance abuse or developmental disabilities.
* Experience must include some combination of the following:
  1. Providing one-on-one or group services with a rehabilitation/habilitation and recovery/resiliency focus;
  2. Teaching and modeling for individuals how to cope and manage psychiatric, developmental or substance abuse issues while encouraging the use of natural resources;
  3. Supporting efforts to find and maintain employment for individuals and/or to function appropriately in families, school and communities;
  4. Assisted individuals to achieve the goals and objectives on their individualized treatment or person centered plans.

NEW TRAINING REQUIREMENTS
* Moving to a competency based system
* Competency companion document suggests training topics for each competency

CORE COMPETENCIES
To be demonstrated within first 30 days of employment:
1. Know the organization's client population, scope of program, mission, vision, and policies and procedures.
2. Understand and perform respective job assignments.
3. Abide by applicable regulation for rights, ethics, confidentiality, corporate compliance and abuse and neglect.
4. Know agency protocols for responding to emergencies at the program facility or while providing services in the community, to include protocols for infection control and agency procedures to maximize safety for consumers, staff members and the public.
**SERVICE COMPETENCIES**

To be demonstrated within first six months of employment:

1. Operate from person-centered, client driven, recovery-oriented, stage-wise service delivery approaches that promotes health and wellness;
2. Develop cultural competence that results in an ability to understand, communicate with, and effectively interact with people across cultures;
3. Deliver services according to key service functions as well as evidence-based and best practices;
4. Practice in a manner that demonstrates respect for and understanding of the unique needs of persons served;
5. Use effective strategies for engagement, re-engagement, relationship-building and communications.

---

**NEW KEY SERVICE FUNCTIONS**

1. Providing holistic, person-centered care with emphasis on personal strengths, skill acquisition and harm reduction, while using stage-wise and motivational approaches that promote active participation by the individual in decision making and self-advocacy in all aspects of services and recovery/resiliency.
NEW KEY SERVICE FUNCTIONS

2. Using interventions, based on individual strengths and needs, to develop interpersonal/social, family, community and independent living functional skills including adaptation to home, school, family and work environments when the natural acquisition of those skills is negatively impacted by the individual's mental illness and/or substance use disorder.

NEW KEY SERVICE FUNCTIONS

3. Facilitating and supporting recovery/resiliency through activities including:
   - defining recovery/resiliency concepts in order to develop and attain recovery/resiliency goals;
   - identifying needs, strengths, skills, resources and supports and teaching how to use them;
   - Identifying barriers to recovery/resiliency and finding ways to overcome them.

NEW KEY SERVICE FUNCTIONS

4. Developing, implementing, updating, and revising as needed, a treatment plan that identifies specific, measurable and individualized interventions to reduce and manage symptoms, improve functioning and develop stability and independence.
   This plan is developed by a team consisting of the following as appropriate: the individual, family, community support specialist, community support supervisor, therapist, medication providers, schools, child welfare, courts and other supports.
5. Providing services that result in positive outcomes including but not limited to the following areas:
   - employment/education
   - housing
   - social connectedness
   - abstinence/harm reduction
   - decreased criminality/legal involvement
   - family involvement
   - decreased psychiatric hospitalizations
   - improved physical health

6. Working collaboratively with the individual on treatment goals and service including the use of collaborative documentation as a tool to ensure that individuals are active in their treatment.

7. Documenting services that clearly describes:
   - the need for the service
   - the intervention provided
   - the relationship to the treatment plan
   - the provider of the service
   - the date, actual time and setting of the service
   - the individual's response to the service
EXAMPLE FORMAT

Purpose: Met with Mary today to work on social connectedness (Goal 1, Obj. 3)

Intervention: Worked with Mary today on learning how to develop new friends. We listed together possible places she could consider for where to practice her conversation starter skills. We then role played how to start a conversation with a new acquaintance. I modeled a conversation starter, prompted her to try a conversation starter with me and gave her feedback on how she did.

Response: Mary was nervous and moved very quickly into a lot of very personal information during the role play. She also said that she was a bit uncomfortable role playing because it felt fake. She said she would be willing to try it again because she knows it can help her learn how to be better at talking to people.

Plan: Meet with Mary again to work on social connectedness. We will try role playing again next week.

NEW KEY SERVICE FUNCTIONS

8. Developing a discharge and aftercare/continuing recovery plan to include, if applicable, securing a successful transition to continued services.

NEW KEY SERVICE FUNCTIONS

9. Contacting individuals and/or referral sources following missed appointments in order to re-engage and promote recovery/resiliency efforts.
10. Supporting individuals in crisis situations including locating and coordinating resources to resolve a crisis.

11. Maintaining contact with individuals who are hospitalized for medical or psychiatric reasons and participate in and facilitate discharge planning for psychiatric hospitalization and for medical hospitalization as appropriate.

12. Provide information and education in order to learn about and manage mental illness/serious emotional disturbance and/or substance use disorders including symptoms, triggers, cravings and use of medications.
NEW KEY SERVICE FUNCTIONS

13. Reinforce the importance of taking medications as prescribed and assist the individual to make medication concerns regarding side effects or lack of efficacy known to the prescriber.

NEW KEY SERVICE FUNCTIONS

14. Building skills for effective illness self-management including psychoeducation, behavioral tailoring for medication adherence, wellness/recovery planning, coping skills training, and social skills training.

NEW KEY SERVICE FUNCTIONS

15. In conjunction with the individual, family, significant others and referral sources, identifying risk factors related to relapse in mental illness and/or substance use disorders and develop a plan with strategies to support recovery and prevent relapse.
NEW KEY SERVICE FUNCTIONS

16. Make efforts to ensure that individuals gain and maintain access to:
   • necessary rehabilitative services
   • general entitlement benefits
   • employment
   • housing
   • schools
   • legal services
   • wellness or other services
   by actively assisting individuals to apply and follow-up on applications; and to gain skills in
   independently accessing needed services.

NEW KEY SERVICE FUNCTIONS

17. Ensuring communication and coordination with and between other interested parties such as:
   • service providers
   • medical professionals
   • referral sources
   • employers
   • schools
   • child welfare
   • courts
   • probation/parole
   • landlords
   • natural supports

NEW KEY SERVICE FUNCTIONS

18. Ensuring follow through with recommended medical care, to include:
   • scheduling appointments
   • finding financial resources
   • arranging transportation
   when individuals are unable to perform these tasks independently.
NEW KEY SERVICE FUNCTIONS

19. Developing and supporting wellness and recovery goals in collaboration with the individual, family and/or medical professionals, including healthy lifestyle changes such as:
   - healthy eating
   - physical activity
   - tobacco prevention and cessation
   - coordination and monitoring of physical health and chronic disease management.

NEW KEY SERVICE FUNCTIONS

20. Assisting to develop natural supports including identification of existing and new natural supports in relevant life domains.

NEW KEY SERVICE FUNCTIONS

21. In coordination with the treatment team, improving skills in:
   - communication
   - interpersonal relationships
   - problem solving
   - conflict resolution
   - stress management
   - identifying risky social situations and triggers that could jeopardize recovery
NEW KEY SERVICE FUNCTIONS

22. Providing family education, training and support to develop the family as a positive support system to the individual. Such activities must be directed toward the primary well-being and benefit of the individual.

NEW KEY SERVICE FUNCTIONS

23. Helping individuals develop skills and resources to address symptoms that interfere with seeking or successfully maintaining a job, including but not limited to:
   • communication
   • personal hygiene and dress
   • time management
   • capacity to follow directions
   • planning transportation
   • managing symptoms/cravings
   • learning appropriate work habits
   • identifying behaviors that interfere with work performance

NEW KEY SERVICE FUNCTIONS

24. Building skills associated with obtaining and maintaining success in school such as:
   • communication with teachers
   • personal hygiene and dress
   • age appropriate time management
   • capacity to follow directions and carry out school assignments
   • appropriate study habits
   • identification of behaviors that interfere with school performance
NEW KEY SERVICE FUNCTIONS

25. Building personal self care and home management skills associated with achieving and maintaining housing in the least restrictive setting by addressing issues like:
   • nutrition
   • meal preparation
   • household maintenance including house cleaning and laundry
   • money management and budgeting
   • personal hygiene and grooming
   • identification and use of social and recreational skills
   • use of available transportation
   • personal responsibility

GOOD JOB!!!

If you can accomplish things listed within the 25 Community Support key service functions, then you can celebrate a job well done!

WHAT IS NOT COMMUNITY SUPPORT

• What's not allowed?
• What's community support but not billable?
NOT ALLOWED

♦ Some community support services should be provided according to standards but are not billable to Medicaid
♦ While people are
  • in psychiatric hospital bed
  • in modified medical detox

  - time spent on assessments, treatment plans, treatment plan reviews
  - review of record/QA review
  - documentation time
  - preparing documents for the department's management information system
  - written communication with referral sources such as Probation and Parole

NOT ALLOWED

- Other
  - interventions with multiple clients
  - group services
  - frequent repeated activities without justification
  - collecting urine for drug screens
  - observation

THE GOLDEN THREAD
SERVICE DELIVERY PROCESS AND DOCUMENTATION

- Assessment
  - Psychosocial Assessment
  - DLA-20
- Treatment planning
- Documentation of the service
  - Collaborative documentation

FUTURE PLANS

- Webinar availability
- Q&A Document
- Follow-up conference calls
