CFPB Releases Resources for Financial Empowerment for People with Disabilities

The Consumer Financial Protection Bureau (CFPB) has supplemented its financial empowerment toolkit, "Your Money, Your Goals," with a companion guide aimed at people with disabilities. "Your Money, Your Goals" consists of a set of modules for use by social service organizations to work with people to help set financial goals and solve financial problems, and is designed to be integrated into their daily work with the people they serve.

The companion guide, "Your Money, Your Goals: Focus on People with Disabilities", contains information, tips, and tools based on insights from people with disabilities and from organizations that serve the disability community.

The toolkit is available at www.consumerfinance.gov/your-money-your-goals. The companion guide for people with disabilities can be found at www.consumerfinance.gov/practitioner-resources/your-money-your-goals/companion-guides/.
