**Self-Guided Discovery: Helping People
Discover Their Own Path to Employment**

The National Disability Institute in partnership with the LEAD Institute, will share a new Facilitator's Guide developed with Griffin-Hammis Associates. This tool can be used to implement Self-Guided Discovery strategies that can benefit any job seeker who faces barriers to employment. Participants will learn about pilot projects in which Self-Guided Discovery was implemented, and hear directly from implementers that worked with the public workforce system and their disability services partners. Finally, the webinar will highlight the ways you can use Self-Guided Discovery to assist youth and adults, with and without disabilities, to achieve employment outcomes.
