## Autism Speaks Anti-Bullying

Bullying is something many people have dealt with during their lifetime, but people with disabilities may be even more susceptible to bullying due to various reasons. Do you know someone who is or has been bullied? Do you know what you can do to help? How can you help a person with a disability learn how to handle a bullying situation and take proactive efforts to prevent bullying?

Information provided through Autism Speaks can assist advocates, parents, and caregivers to begin taking necessary steps to target anti-bullying efforts. To read more from Autism Speaks about anti-bullying, please click the following link:
