Disability Employment Awareness Month 2018

Governor Michael Parson has proclaimed October to be Disability Employment Awareness Month to recognize individuals with disabilities as valued contributors to Missouri's workforce. To read Governor Parson's proclamation, please click [HERE](#).

National Disability Employment Awareness Month (NDEAM) is observed annually in October. NDEAM was created to acknowledge the value and accomplishments of workers with disabilities in our workforce and to serve as a time of awareness for increasing the employment rate of individuals with disabilities. This year's theme is "America's Workforce: Empowering All" to reflect the value of a diverse workforce. Resources, materials and the history of NDEAM are available through the [US Department of Labor website](#).
