## [APSE Mo on the Go: Employment University](#)

The Missouri Chapter of APSE will be offering five opportunities to develop the skills of employment support professionals this spring. This one-day training provides participants a holistic training on the effective delivery of employment services and supports. Participants will be involved in lecture presentations, interactive activities, and group networking. Topics that will be covered include:

- History of Employment Services
- Discovery & Exploration
- Job Development
- Building Business Partnerships
- On-Site Coaching Supports

Intended Audience: Ideal attendees may include individuals new to the field of supported employment services, extended employment providers exploring expanding service opportunities and staff from community-based day programs. This training is an option for fulfilling employment support professional training requirements.

Location and Dates: This one day training will be offered in 5 different locations throughout the state. To learn more about the locations or to register, please visit [APSE MO Professional Development Events](#).
