Recorded Webinar Now Available

Overview of Directive 3.120, Process to Implement a Do Not Resuscitate (DNR) Order for Individuals Receiving DD Contracted Services

The Overview of Directive 3.120, Process to Implement a Do Not Resuscitate (DNR) Order for Individuals Receiving DD Contracted Services, presented by Shari Whelan, RN, BSN, Division of DD Health and Wellness Coordinator, was held January 29 with 115 registrants attending. This webinar describes the criteria and process for obtaining and implementing Do Not Resuscitate (DNR) orders for individuals in receipt of DD contracted services. During this webinar, participants are provided with an overview of terms and processes for obtaining a DMH DNR; for utilizing Out-Of-Hospital DNR (OHDNR) orders with Hospice Services; and criteria for use of Alternative to CPR orders in contracted services. The target audience for this webinar is DD contracted service providers (administration, nursing, and DCS), support coordinators and supervisors, and DMH staff planning for end of life choices.

The [presentation](#) and [webinar recording](#) are now available.
