

4/16/19

Revalidation Deadline for Medicaid Waiver and TCM Providers

On April 4, 2019, providers received notice from MMAC that they have 30 days to submit their application or their NPI will be referred for deactivation. Deactivation notices will begin during the first week of May 2019. Providers who are deactivated must appeal the decision which does not circumvent the requirement to revalidate.

Provider billing numbers that have not finished the revalidation process by June 30, 2019, will be terminated of July 1, 2019. Because over 6,535 statewide MOHealthNet providers are past due, the full enrollment process may take more than 30 days. Billing for services will be stopped until the provider completes the full enrollment process.

There are currently 698 DD contracted providers that have not completed the revalidation process.

You can review your revalidation status, NPIs and revalidation due dates here: [Provider Revalidation Status](#). This file is updated weekly. For real time information go to <http://www.emomed.com/>.

Status names and definitions:

- Past Due = Provider needs to submit a revalidation application (includes applications started but not submitted, those in reject status, and those who have not submitted anything at all)
- Submitted = Provider has submitted a revalidation, and it's in MMAC's court
- Approved = Revalidation is approved
- In Progress - Not Due = Provider who started a revalidation application but are not due for revalidation yet

Due to clarification from the Division on POS Contract status, MMAC is reviewing the rejection status. If the rejection was due only to lack of a current POS Contract, the rejection status will be changed to submitted.

Please go to <http://www.emomed.com/> to complete and submit the revalidation application along with any supporting documentation to avoid any interruption in payments. If you do not have an eMOMED account, please go to <http://www.emomed.com/> and register for an account. The eMOMED help desk can be contacted at 573-635-3559 if you have any difficulties navigating the online application.

You may also direct revalidation questions to MMAC.Revalidation@dss.mo.gov or 573-751-5238.
