The profiles below summarize individuals admitted to Division of Behavioral Health substance use treatment programs. Individuals are counted only once, regardless of their number of admissions within the fiscal year. Individuals admitted only to categories listed in the box above-right are not included below. An asterisk (\*) in a data cell indicates the count was fewer than 5 and suppressed to avoid disclosure of identifying information:

| Total Individuals  | NUMBER ADMITTED   | FY2016 | FY2015 | FY2014 | PRIMARY DRUG PROBLEM                  | FY2016 | FY2015 | FY2014 |       |       |          |   |   |   |

Individuals who received psychiatric services had the following types of

The profiles below summarize individuals who received clinical services from the Division of Behavioral Health psychiatric programs. Individuals are counted only once based on their first treatment episode of the fiscal year. Information that was not reported is listed as unknown. An asterisk (\*) in a data cell indicates the count was fewer than five (5) and suppressed to avoid disclosing identifying information.

Note: The Missouri Student Survey is conducted biennially in even-numbered years. The survey is not conducted in every school district, and data are not displayed for counties or survey questions with small numbers of respondents. Percentages displayed are estimates based on weighted data. Some year-to-year differences in percentages are not statistically significant.
