

# ITEM 12

12. If Psychotropic Medications have been prescribed - there are Target behavior(s) related to the reasons for which medications were prescribed.

# Non-Exemplars

Medication	Reason Prescribed
Quetapine	Bipolar Disorder
Oonazepam	Depression
Divalproex	Aggression
Acetaminophen	Pain and fever
Tussin	Cough
Milk of Magnesia	Constipation

# Exemplars

<b>Medication</b>	<b>Date Prescribed</b>	<b>Target Behavior</b>
Quetapine	June 15, 2017	Pacing/Repetitive Behaviors
Oonazepam	June 15, 2017	None Identified
Divalproex	March 15, 2018	Pacing/Repetitive Behaviors

# ITEM 13

13. If Psychotropic Medications have been prescribed - Describe procedures for communication of data with the prescribing physician.

# Non-Exemplars

- 👤 Direct Care staff and Cheryl's parents will accompany her to all psychiatric appointments. The Parents and Direct Care staff will communicate with the psychiatrist what they feel is important regarding what has been happening behaviorally with Cheryl. Direct Care staff will also bring the monthly summaries from the ISP.

# Exemplars

- 👤 The BCBA will provide graphed data of all target behaviors. The BCBA and/or House Manager will accompany Percy and his staff to each psychiatric appointment. In addition, the BCBA will communicate with the psychiatrist via email on a monthly basis (in between scheduled appointments) indicating a summary of behaviors and graphed data.

# ITEM 14

14. If restrictive strategies are used, history and data related to less restrictive/positive only strategies are described, current ABA literature supports that procedures are likely to be effective as designed in this plan.

# Non-Exemplars

## *Context*

-  Jenny has recently begun calling her guardian constantly

## INTERVENTION

-  The phone in the house will be disconnected
-  Staff will not allow Jenny to use their phones

# Exemplars

## *Context*

-  In the past, Enrique has used silverware to stab other people in order to escape their presence

## INTERVENTION

-  While assertive communication skills and appropriate escape behavior are being trained, silverware will remain in a locked drawer
-  As skills are acquired and physical aggression reduces to a near-zero level, silverware will be gradually re-introduced

# ITEM 15

15. The implementation of the above strategies should result in an improvement in Quality of Life. (Must have yes indicated on all of these items- 4, 5, 7, 8, 9)

🕒 Item 15 addresses Quality of Life and it is measured by the existence of items 4, 5, 7, 8 and 9 being evident in the plan.

- 4. BSP or ISP has goals and objectives for acquisition of skills related to the problem behaviors and associated situations.
- 5. Description of data collection to assess the effectiveness of plan -Measurement of target behaviors, fidelity of implementation. Include copy of data collection tool.
- 7.A. Implementation plan specifically described for: Proactive Strategies to prevent challenging behaviors, improve quality of life and promote desirable behaviors. 7.B. Teaching of skills that are specifically related to desirable target behaviors.
- 8. Strategies and specific instructions for reinforcement of desirable target behaviors are described and potential reinforcing stimuli are identified.
- 9. Describes specific strategies to generalize and maintain the effects of plan- including strategies for fading of contrived contingencies to more natural contingencies and support system changes to maintain these strategies after BSP is faded.

# ITEM 16

16. Describes the method of performance based training for care givers and oversight persons.

# Non-Exemplars

## Checklist Item 16

-  All staff will be trained in Tools of Choice strategies and implement these strategies as often as possible (a summary of the TOOLS strategies can be found in a binder located in the residence).

# Exemplars

## Checklist Item 16

-  ISL Provider will designate 1 administrative employee within their company to take the lead of onsite monitoring. BCBA and ISL provider will work to complete within organization protocol for safety prior to direct training with all direct care staff. Staff will receive BSP training in a group setting initially. During initial training, BCBA will provide verbal instruction with Power Point for visual reference on all sections of the BSP (i.e. proactive techniques, behaviors targeted for reduction and functional relation, reactive strategies and behavior crisis cycle, behavior data collection, reinforcement, additional behaviors of importance and restrictive measures). On the second day of training, BCBA will review instruction, modeling the specific techniques, strategies and data collection for direct care staff. Following modeling, each staff will be given the opportunity to role-play and actively use the skills learned in the training session. Feedback is given immediately, with modeling any corrections for staff implementing the skill as well as feedback to all other staff collecting behavior data in conjunction to the role-play. Competency will be assessed by role-play portion of training. To show competency during the initial training, staff will correctly play the role of both staff and client, responding with 80% accuracy or higher with modeling proactive and reactive strategies during role-play and completion of ABC data during role-play. (Clayton &Headley, 2019)

# ITEM 17

17. Describes methods for evaluation of fidelity of implementation and improvement of fidelity of implementation.

# Non-Exemplars

- 👤 Checklist Item 17
  - 👤 BCBA will regularly review plan implementation

# Exemplars

## 👤 Checklist Item 17

- 👤 BCBA will check each staff monthly in accordance with the checklist
- 👤 Any item missed is retrained
- 👤 Data is reviewed monthly with management

Task	Yes	No
Staff gave Joe a choice when it was time to do a task		
If Joe indicates he would do it later staff indicate they would leave him alone		
If Joe does it now they offer a preferred activity		
If Joe does the task later they offer a preferred activity		
Staff do not continually prompt		
Staff do not force him to complete the task		

# Challenge

## Checklist Item 17

-  House manager will train staff and retrain any staff that do not implement the plan correctly.

# Challenge Question

- 👤 Does the challenge question for Item 17 represent an exemplar or a non-exemplar?

# ITEM 18

18. Description of how plan will be communicated to all systems, supports, services for the individual.

# Non-Exemplars

## Checklist Item 18

-  Monthly summaries are completed and distributed by the 15<sup>th</sup> of every month.

# Exemplars

## 🕒 Checklist Item 18

👤 Monthly summaries are completed and distributed by the 15<sup>th</sup> of every month as follows:

- 🏠 Residential Provider – Director, QDDP, House Manager of Sent by Angels
- 🏠 Day Program Provider – Director, Area Manager of Much a Do about Something
- 🏠 Primary Care Physician – Dr O. Kay will receive copies as requested or Residential Provider will take most current monthly summary to the appointment
- 🏠 Psychiatrist – Dr. Z. Fiend - will receive monthly summaries and BCBA will take the most current summary to the appointment
- 🏠 Guardian – Centre County Public Administrator
- 🏠 Individual – Duddley Dorong

# ITEM 19

19. If plan has been implemented -Strategies were modified and adjusted, in a timely manner, as indicated by data. N/A if this review is prior to implementation.

# Non-Exemplars

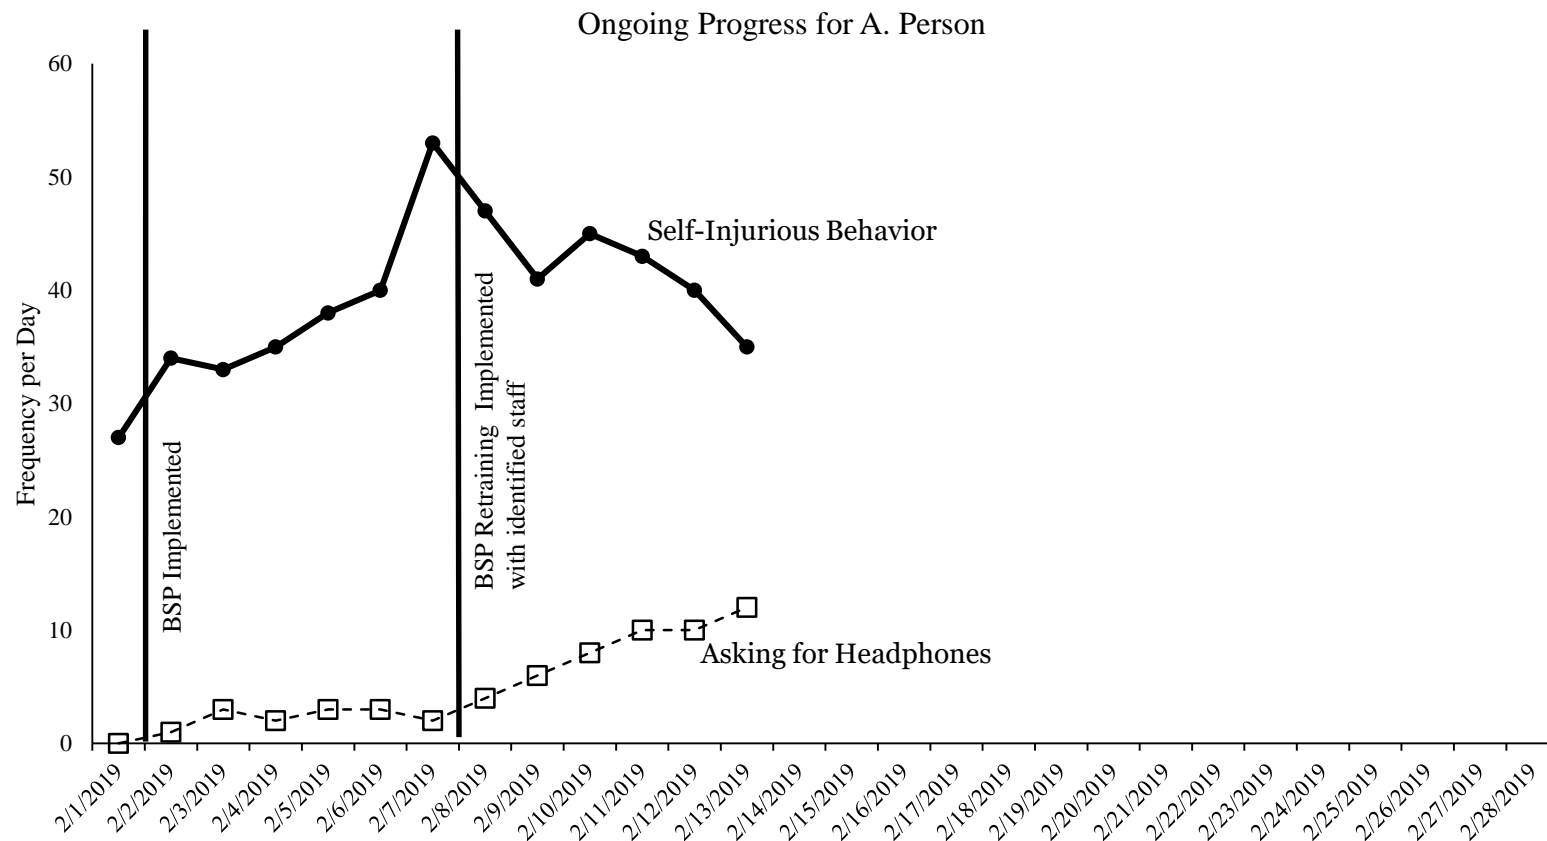

## Checklist Item 19

-  The BSP was implemented on 2/1/19 and on 2/2/19 a new reinforcement plan was implemented in addition to a revised set of proactive preventative procedures.

# Exemplars

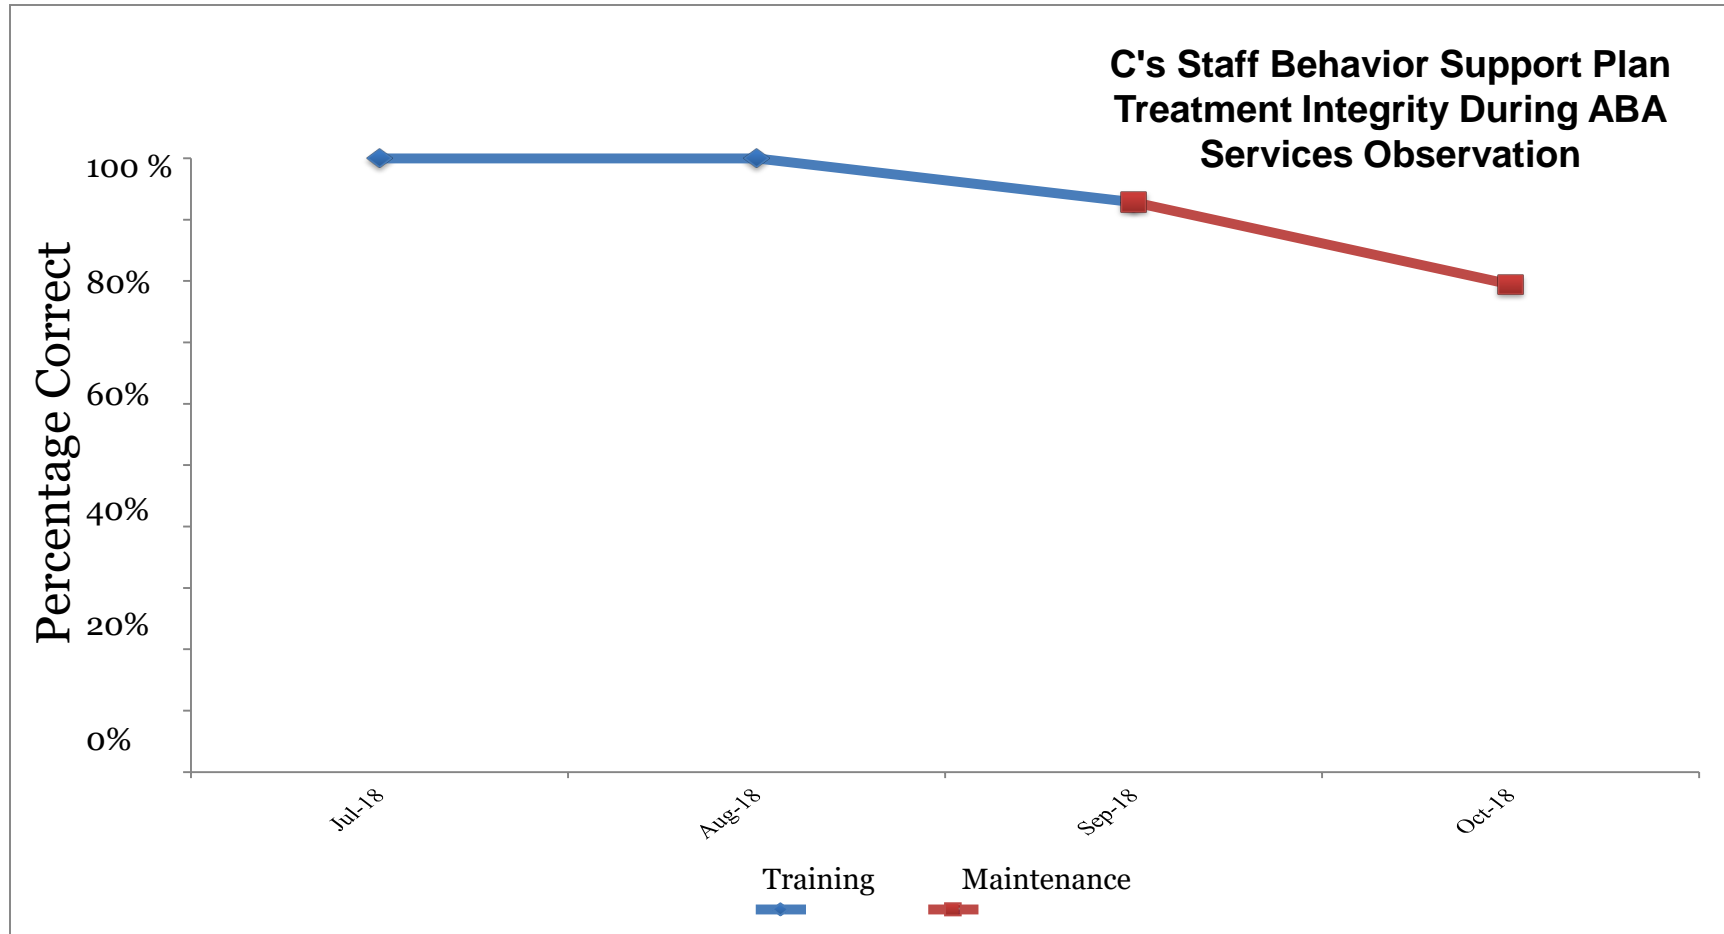

## 📍 Checklist Item 19

# ITEM 20

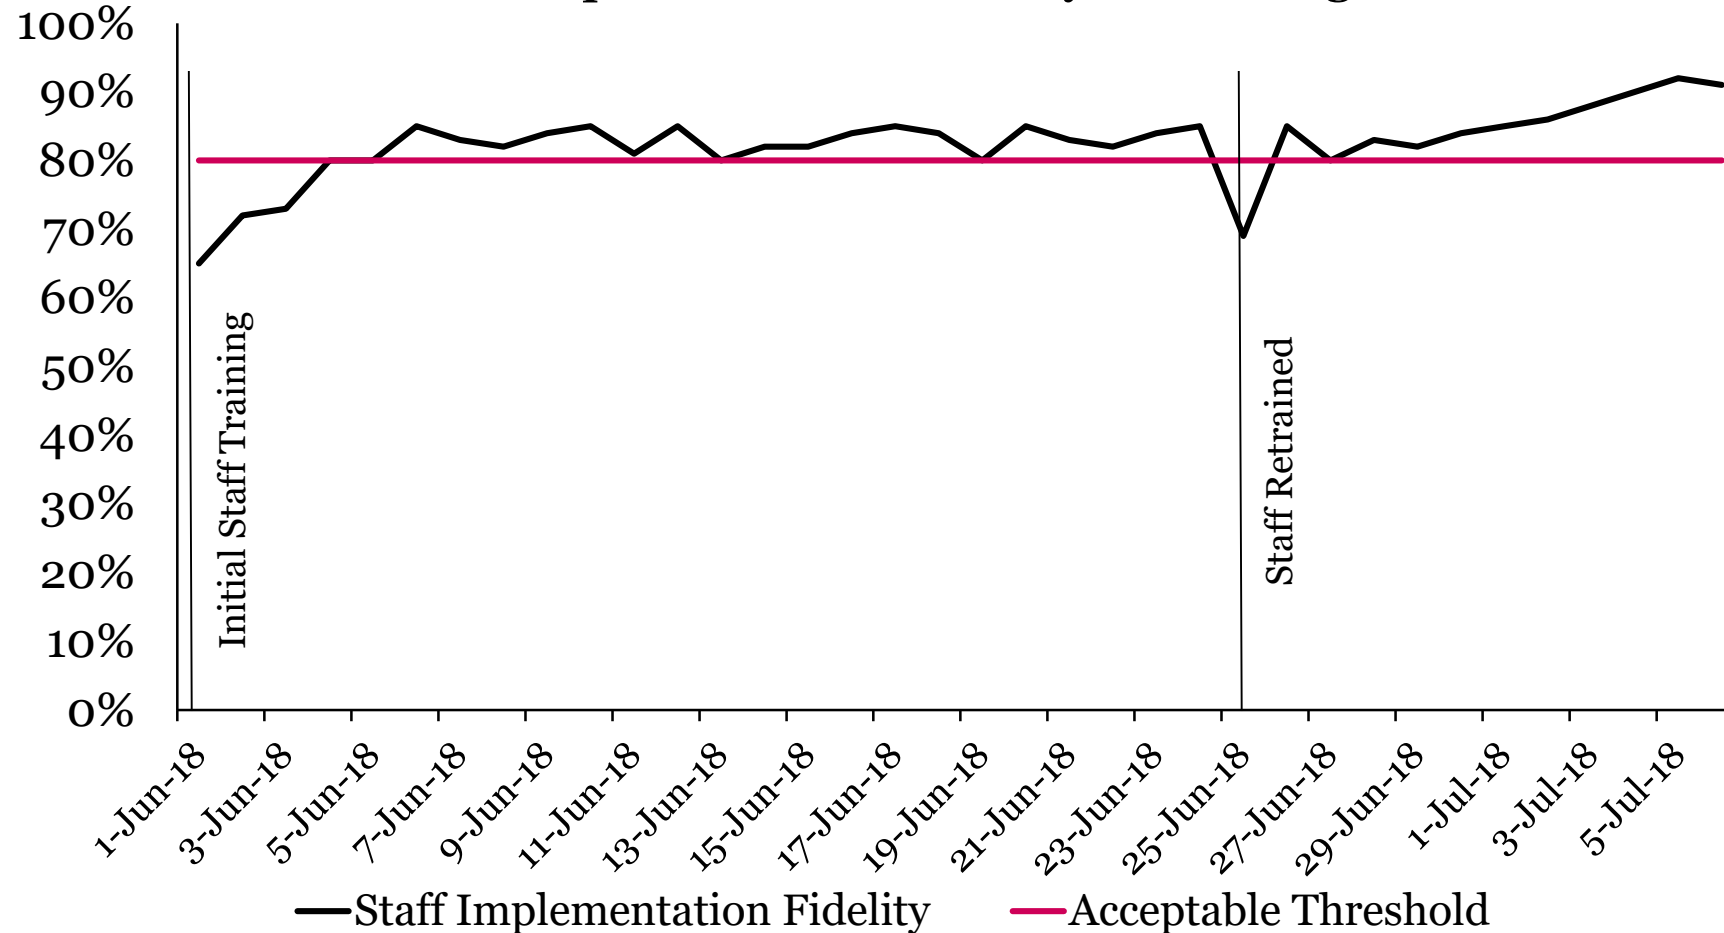

20. If plan has been implemented - fidelity of implementation data is provided and indicates adequate implementation fidelity.

# Non-Exemplars

# Exemplars

## Staff Implementation Fidelity for Strategies

# Challenge

- 👤 Record review indicates that staff are implementing the plan as written.

# Challenge Question

- 👤 Does the challenge question for Item 20 represent an exemplar or a non-exemplar?

Improving lives THROUGH  
supports and services  
THAT FOSTER self-determination.
