Developmental Disabilities Awareness Month Poster Contest

March is Developmental Disabilities Awareness Month. Each year a group of Missouri organizations including Missouri Association of County Developmental Disability Services (MACDDS), The Arc of Missouri, People First of Missouri, and the MoDD Council, produce a poster and bookmark celebrating inclusion of people with developmental disabilities in everyday life. These posters and bookmarks are displayed by schools, libraries, and other community organizations throughout the state.

A contest for an original design for the 2020 poster and bookmark from people with a developmental disability is being held with a \$500 prize being awarded to the winning design artist. [Click](#) for information on how to submit an entry into the contest. Deadline for entry is January 6, 2020.

Designs from previous years are available on the MODDC website www.moddcouncil.org
