DHSS Online Reporting System

The Department of Health and Senior Services (DHSS) proudly announces the integration of a new online reporting system for mandated reporters which will ensure all concerns of abuse, neglect and financial exploitation of the elderly and adults with disabilities are reported quickly.

The new Adult Abuse and Neglect Hotline [online reporting system](#) will allow for secure electronic submission of adult abuse, neglect and exploitation report information, from mandated reporters and public citizens into a secure, encrypted database available 24/7 on a web-based platform as an alternative to calling the [Adult Abuse and Neglect Hotline](#). DHSS encourages all mandated reporters to partner with them by entering reports online and allowing greater accessibility to the hotline for the public.

If you have any questions regarding online reporting, please reach out to DHSS at 573/751-2413 or DSDSOofficeofConstituentServices@health.mo.gov.
