## Economic Income Payments for SSI Recipients

The Social Security Administration has shared this message for Supplemental Security Income (SSI) recipients regarding the Economic Income Payments (EIP). If you receive SSI, you will get your \$1,200 economic impact payment from the IRS automatically - you don't have to do anything. EIP will not impact Medicaid or Social Security benefits.

- But if you get SSI, have not filed a tax return, and you have an eligible child, YOU MUST ACT NOW to get \$500 per child in addition to your \$1,200 payment
- BY MAY 5, go to the IRS' Non-Filer web form available at [IRS.gov](https://www.irs.gov) to give information about your children.
- If you miss the May 5 deadline, please go to [IRS.gov](https://www.irs.gov) for further information.

For information on how Social Security continues to serve the public during this critical time, go to [ssa.gov/coronavirus](https://www.ssa.gov/coronavirus).
