

Improving lives THROUGH  
supports and services  
THAT FOSTER self-determination.

7/15/20

*Webinar Series*  
**Let's Talk ICT**

Missouri Assistive Technology and state accessibility leaders will present a yearlong series of Information and Communication Technology (ICT) talks and demonstrations.

**Session 1**  
**Making Remote Learning Documents Accessible**  
**for Visually Impaired Students**

**July 22, 2020, 10:30 a.m.**

Managing accessibility in the transition from classroom to remote learning is critical for student success. Learn firsthand the process, pitfalls and lessons learned by the Francis Howell School District as they successfully transitioned their students with visual impairments to on-line learning this past spring.
