Employment Online Learning Community: Hiring Initiatives

October 27, 2020
2:00 pm – 3:00 pm

When providing employment services to individuals with disabilities, many are unfamiliar with hiring initiatives through the federal government. There are opportunities for individuals with disabilities to become employed throughout Missouri at Social Security offices, VA hospitals, IRS, military bases, etc. Through this interactive session, participants will discuss the Schedule A hiring authority (a non-competitive hiring process to hire persons with disabilities). Attendees will be provided with eligibility criteria, resources, and strategies to assist in this process. [Click to Register.](#)

Employment First Missouri, a collaborative between the Division of Developmental Disabilities and the Institute for Community Inclusion at University of Massachusetts-Boston, offers monthly professional development opportunities.
