

Improving lives THROUGH  
supports and services  
THAT FOSTER self-determination.

3/12/21

*Online Workshop*

## **Building a "Smart" Home**

March 24, 2021  
12:30 pm

Learn about ways to make your home more convenient and accessible to live in for those you support without spending the extra time or money to do so. Leave this session with immediate-use ideas for enhancing your:

- Person-centered planning and problem-solving (using CtLC);
- Technology knowledge and skill set (in collaboration with Missouri Assistive Technology); and
- Local service and support strategies amidst the COVID-19 crisis.

[Click for more information including registration.](#)

Future workshops include:

April 28 Taking Charge of My Health

May 26 Strategies for Preventing Falls

June 23 Supports for Viewing Print and Computers
