National Disability Employment Awareness Month: Governor Parson Proclamation

National Disability Employment Awareness Month (NDEAM) is observed annually in October. NDEAM acknowledges the accomplishments of workers with disabilities in our workforce and serves as a time of awareness for increasing the employment rate of individuals with disabilities.

Governor Parson has issued a proclamation of Missouri's recognition of NDEAM and the value of inclusive workplaces in our communities. The proclamation highlights the importance utilizing the talents and contributions of Missourians with disabilities. To read Governor Parson's proclamation, please click [HERE](#).

Suggestions on how you can celebrate NDEAM throughout the month of October can be found at *31 Days of NDEAM* which can be accessed at [NDEAM Ideas](#).
