Excessive Heat Resources

As heat indices are anticipated to exceed 100 degrees throughout Missouri this week, please be aware and take precautions. The Wet Bulb Globe Temperature calculator is a resource for conducting outdoor activities relatively safely. The National Weather Service information packet provides an extended outlook and hot weather tips to stay healthy and safe.

Additional resources include:

- Missouri Cooling Centers
- Pet safety in hot weather
- Humane Society
- Extreme Heat Tips
- Preventing Heat Related Illness Observe! Decide! Act!
