MOADD ECHO

Missouri Alliance for Dual Diagnosis -- Extension for Community Healthcare Outcomes (MOADD ECHO) bridges the care gap between professional mental health providers, state agencies and service systems, and children with dual diagnoses. Collaboration sessions will be held the 1st and 3rd Wednesday of each month from 12:30-2:00 pm. The next session will be Wednesday, January 18. The topic this session is Transitions: Planned Goes Better, with Rhi Evans as the guest speaker. To participate in the session, you need to [register](#) as a MOADD ECHO member and information will be sent to you..
