WEBVTT

1 "Lisa Nothaus" (1338823680)
00:00:00.000 --> 00:00:08.220
We didn't work this out beforehand, but I will pass this off to you. So you can run your slides when it comes time. If that's okay.

2 "Lisa Nothaus" (1338823680)
00:00:08.220 --> 00:00:18.959
That's great. Okay, so welcome everybody to the and new webinar. The topic today is cat shared is accessing the system technology.

3 "Lisa Nothaus" (1338823680)
00:00:18.959 --> 00:00:25.650
Can also share that the webinar is being recorded and will be made available later on the divisions webpage.

4 "Lisa Nothaus" (1338823680)
00:00:25.650 --> 00:00:33.210
And we'll go ahead and put that link in the chat for you now, and also share that you will also receive an email when that recording's ready. So.

5 "Lisa Nothaus" (1338823680)
00:00:33.745 --> 00:00:48.595
if you were an individual with a developmental disability or a family member welcome we're very glad to have you on the call today if you are someone who supports individuals and families please be sure to share this information with them and also let them know what the link

6 "Lisa Nothaus" (1338823680)
00:00:48.595 --> 00:00:53.185
is to the webinar page so that they can go back and review the information later if they're not able to

7 "Lisa Nothaus" (1338823680)
00:00:53.210 --> 00:01:01.980
Attend today, Holly right. Is here today to share information about how we can access assistance, assistance technology.

8 "Lisa Nothaus" (1338823680)
00:01:01.980 --> 00:01:06.180
She's going to tell us a little bit about what it is and what it isn't.

9 "Lisa Nothaus" (1338823680)
00:01:06.180 --> 00:01:10.890
So, for today's webinar, we're going to start off with our introductions.

10 "Lisa Nothaus" (1338823680)
00:01:10.890 --> 00:01:22.045
We'll talk a little bit about assistive technology. Like I said, she's gonna kind of review. I think there's been some missed out there. What what people think assistive technology is so she's gonna go walk through that with us.

11 "Lisa Nothaus" (1338823680)
00:01:22.345 --> 00:01:30.805
We're going to talk about how to get started with the system technology
we're gonna touch on remote supports and we'll talk about where you can
find help to explore system technology.

12 "Lisa Nothaus" (1338823680)
00:01:31.515 --> 00:01:45.855
I actually heard Holly do a presentation earlier this year and thought
the information was so good. I asked her to please join a webinar with us
today and and see if she can share that information again and get it
recorded and out to the audience that we, we, um, hit on. So.

13 "Lisa Nothaus" (1338823680)
00:01:46.410 --> 00:01:58.560
Real quickly I am Lisa not house. I work at the division of BD as the
supporting family's lead. I am also a parent, um, my husband and I have
an adult daughter who received services so I often where.

14 "Lisa Nothaus" (1338823680)
00:01:58.560 --> 00:02:04.320
2 different hats I have a personal experience had, and then I have the
work work related hat. So.

15 "Lisa Nothaus" (1338823680)
00:02:04.320 --> 00:02:11.490
Um, Holly, if you're ready, I'm gonna turn it over to you and let you
introduce yourself and start sharing the information.

16 "Holly Reiff" (1787569408)
00:02:11.490 --> 00:02:16.710
Yeah, well welcome everyone. I'm so excited to be with you guys. Um.

17 "Holly Reiff" (1787569408)
00:02:16.710 --> 00:02:30.660
I am the provider relations director for the Department of developmental
disabilities. And prior to that, I, um, was part of the unit team, which
is universal design in the system of technology and I have a special
passion.

18 "Holly Reiff" (1787569408)
00:02:30.660 --> 00:02:40.920
For all things assistive technology so anytime I get to talk about it, I,
it just makes me giddy. So I promised to try to slow down and talk
slowly. So everyone can, um.

19 "Holly Reiff" (1787569408)
00:02:40.920 --> 00:02:45.030
Be in the now and get some good information out of this.

20 "Holly Reiff" (1787569408)
00:02:45.030 --> 00:02:52.560

So just want to talk about a few minutes of technology and these are ones we hear all the time. We hear that.

21 "Holly Reiff" (1787569408)
00:02:52.560 --> 00:03:05.755
Assistant technology's complicated in high tech. It's expensive. You've gotta have some sort of prerequisites for using assistive technology. You gotta have already, you know, knowledge and skills about what it is in order to make it work.

22 "Holly Reiff" (1787569408)
00:03:06.175 --> 00:03:12.505
And, you know, if it works great for 1 person, it's gonna work group for another person. But as we all know, there's Apple people out there and.

23 "Holly Reiff" (1787569408)
00:03:12.560 --> 00:03:22.860
Here's Android people out there and neither of the 2 shell cross, at least in my experience. So, um, we've got to really personalize it down and make sure what what it's working.

24 "Holly Reiff" (1787569408)
00:03:22.860 --> 00:03:34.620
For 1 person, if it is transferable, it's going to work for the other person in the same way. And it, you know, it's not gonna always be transferable. So meeting people where they're at is a huge part of.

25 "Holly Reiff" (1787569408)
00:03:34.620 --> 00:03:37.680
Finding the right kind of technology solutions.

26 "Holly Reiff" (1787569408)
00:03:37.680 --> 00:03:51.900
I want to talk a little bit about the levels of technology because this is something that a lot of folks don't think about. They always want to jump right over here to this high tech part. But, you know, there's some things that are a lot.

27 "Holly Reiff" (1787569408)
00:03:51.900 --> 00:03:56.250
On the tech side that might support folks, you know, um.

28 "Holly Reiff" (1787569408)
00:03:56.250 --> 00:04:06.510
These might be inexpensive are ready to use tools that you might find around your house that you didn't know, had an extra use for, um, like the.

29 "Holly Reiff" (1787569408)
00:04:06.510 --> 00:04:13.050
I don't know if you guys have 1 of these in your kitchen. That's 1 of my favorite kitchen tools. Is this stick and you use it to pull.

30 "Holly Reiff" (1787569408)

00:04:13.050 --> 00:04:25.440
The tray out or the rack out from the oven so you're not reaching into
the oven to pull out hot dishes and then you can use the stick to push it
back at you know, you can also use that to open up some doors.

31 "Holly Reiff" (1787569408)
00:04:26.095 --> 00:04:40.675
If they get stuck as well, then you have the less sophisticated, easy to
use. Um, some of these at least for the DD world, and for our waivers,
the low tech and low or light tech may actually fall under specialized
medical equipment.

32 "Holly Reiff" (1787569408)
00:04:41.215 --> 00:04:44.065
Um, medium tech is going to be things like apps.

33 "Holly Reiff" (1787569408)
00:04:44.219 --> 00:04:48.179
Some more complicated devices.

34 "Holly Reiff" (1787569408)
00:04:48.179 --> 00:04:52.319
Um, low tech light tech, medium tech may be.

35 "Holly Reiff" (1787569408)
00:04:52.344 --> 00:05:07.284
Things that are printed from a 3 D printer that are specific for the use
of the individual and then we have our high tech. This is where you're
going to see the obie feeding robot, for example, and some other tools
and services.

36 "Holly Reiff" (1787569408)
00:05:09.569 --> 00:05:15.419
I want to talk about what a system technology is, because actually it's 2
things.

37 "Holly Reiff" (1787569408)
00:05:15.419 --> 00:05:24.594
Kind of at the same time, and it can be 2 things completely on their own.
So assistive technology can be devices. Art can be services.

38 "Holly Reiff" (1787569408)
00:05:24.804 --> 00:05:32.694
So when we think of devices, we think of those actual hardware pieces,
the tablet that allows you to run.

39 "Holly Reiff" (1787569408)
00:05:32.969 --> 00:05:38.069
An application that will help support you in daily life. Um.

40 "Holly Reiff" (1787569408)
00:05:38.069 --> 00:05:46.649
Versus the service, which might be more like our medication
administration services where you have the device for the technology.

41 "Holly Reiff" (1787569408)
00:05:46.649 --> 00:05:56.009
For the medication administration, the service behind it is what's really
key to help, you know, maintain those things. So assistive technology.

42 "Holly Reiff" (1787569408)
00:05:56.009 --> 00:06:07.829
Encompasses both most of the time, a lot of times the device won't work
without the service and sometimes the service just doesn't work without
the device.

43 "Holly Reiff" (1787569408)
00:06:07.829 --> 00:06:12.209
So, when we think about getting started with.

44 "Holly Reiff" (1787569408)
00:06:12.209 --> 00:06:15.419
Technology, we think about it in kind of, uh, uh.

45 "Holly Reiff" (1787569408)
00:06:15.419 --> 00:06:20.039
3 to 4 step process. So when we look at.

46 "Holly Reiff" (1787569408)
00:06:20.039 --> 00:06:27.534
Um, what technology means there's a few things. We need to look at. We
need to consider the individual.

47 "Holly Reiff" (1787569408)
00:06:27.744 --> 00:06:39.894
We need to look at what they are, what tasks they're looking to
accomplish, what tools they might already be familiar with and the
environment in which they're using it because if they're using it at
work, that might look very.

48 "Holly Reiff" (1787569408)
00:06:40.039 --> 00:06:50.759
Different from what kind of technology or tools and supports they need in
the industry in their home um, and vice versa schools and things like
that. Um, we do some exploration.

49 "Holly Reiff" (1787569408)
00:06:50.759 --> 00:07:05.069
With lending library schools, a lot of the local public libraries and,
uh, if you guys didn't notice Missouri, assistive technology has a swap
and sharp page where you can find, uh.

50 "Holly Reiff" (1787569408)
00:07:05.069 --> 00:07:15.029
Are used gently used a specialized medical equipment and some assistive
technology devices there as well. They also have a lending library that
helps.

51 "Holly Reiff" (1787569408)
00:07:15.029 --> 00:07:26.879
And check on your local libraries, because a lot of our public libraries
do offer rentals for tablets or hotspots to see if those things will
work. Well, for individuals in a minute.

52 "Holly Reiff" (1787569408)
00:07:26.879 --> 00:07:36.089
There we go, I couldn't see the whole side. I'm like, wait what happened
to the rest of the implementation piece. So when we look at
implementation, we look at.

53 "Holly Reiff" (1787569408)
00:07:36.089 --> 00:07:50.879
Who who's the person and who's going to help them? What supports are
going to be available to support them in learning that technology?
Because what we don't want to see if someone getting a piece of
technology that can really help them, but they're not having the support
or the follow up to help.

54 "Holly Reiff" (1787569408)
00:07:50.879 --> 00:07:54.719
Learn that, so then it sits on the shelf. Um, so.

55 "Holly Reiff" (1787569408)
00:07:54.719 --> 00:07:59.429
The implementation is really important as well.

56 "Holly Reiff" (1787569408)
00:07:59.429 --> 00:08:03.089
I, um, this.

57 "Holly Reiff" (1787569408)
00:08:03.089 --> 00:08:11.489
Star came from turning the life course, and it came from a funding
webinar that David Baker did with.

58 "Holly Reiff" (1787569408)
00:08:11.489 --> 00:08:14.489
You and Casey is human development.

59 "Holly Reiff" (1787569408)
00:08:14.489 --> 00:08:25.199
On how to fund assistive technology and I just think this support star,
uh, framework for finding out how to support assistive technology is.

60 "Holly Reiff" (1787569408)
00:08:25.199 --> 00:08:28.319
Absolutely invaluable. And a genius.

61 "Holly Reiff" (1787569408)
00:08:28.319 --> 00:08:38.879

Um, because it talks about all all areas of support and of course, we do have our waivers down here. Um, you know, we have able accounts and we have.

62 "Holly Reiff" (1787569408)
00:08:38.879 --> 00:08:45.059
Missouri assistive technology who can help if you don't have a waiver and you're in the St Louis area.

63 "Holly Reiff" (1787569408)
00:08:45.059 --> 00:08:52.409
Life tech through St Louis arc is also a funding source there, but think about.

64 "Holly Reiff" (1787569408)
00:08:52.409 --> 00:08:58.949
How you would use your own technology, um, you know, is there a tablet that the individual needs.

65 "Holly Reiff" (1787569408)
00:08:58.949 --> 00:09:04.019
For specific application our support.

66 "Holly Reiff" (1787569408)
00:09:04.019 --> 00:09:16.739
Sometimes that's a time timer, they just need a timer a way to set a timer, and they know how to move on to the next activity. So, it's really good to think about all available things. And then, you know.

67 "Holly Reiff" (1787569408)
00:09:16.739 --> 00:09:25.349
YouTube is an amazing place to learn about how to use technologies applications. Um.

68 "Holly Reiff" (1787569408)
00:09:25.349 --> 00:09:31.049
All sorts of anything you ever want us to know, is always available I think, for you on YouTube.

69 "Holly Reiff" (1787569408)
00:09:31.049 --> 00:09:34.169
Um, a little bit about our waiver.

70 "Holly Reiff" (1787569408)
00:09:34.169 --> 00:09:37.199
Services, so we have.

71 "Holly Reiff" (1787569408)
00:09:37.199 --> 00:09:43.919
Uh, 4 different types of assistive technology within our assistive technology waiver.

72 "Holly Reiff" (1787569408)
00:09:43.919 --> 00:09:47.789

And that includes things like devices and equipment.

73 "Holly Reiff" (1787569408)
00:09:47.789 --> 00:09:52.919
So these are 1 time purchases so if you just need a 1 time piece of
equipment, like an iPad.

74 "Holly Reiff" (1787569408)
00:09:52.919 --> 00:09:56.609
With apps specifically put on it or.

75 "Holly Reiff" (1787569408)
00:09:56.609 --> 00:10:04.019
And you need a bed sensor that will connect to your Alexa. So the
individual can receive help.

76 "Holly Reiff" (1787569408)
00:10:04.019 --> 00:10:07.829
Um, in the least if it's in.

77 "Holly Reiff" (1787569408)
00:10:07.829 --> 00:10:22.524
Basic way we have services and these include our personal emergency
response and mobile emergency response system, medication
administrations, and we do have applications and services that have a
monthly fee. And that would be covered under there.

78 "Holly Reiff" (1787569408)
00:10:22.829 --> 00:10:31.259
We have education and support these education and support are directly
tied to those services and equipment. So if you get an iPad.

79 "Holly Reiff" (1787569408)
00:10:31.259 --> 00:10:38.489
I'm from Missouri assistive technology, for example, who's our our main
provider for that type of equipment?

80 "Holly Reiff" (1787569408)
00:10:38.489 --> 00:10:43.409
They would then reach out and provide you with some additional education
and support.

81 "Holly Reiff" (1787569408)
00:10:43.409 --> 00:10:57.989
Then we have consultation and the folks that can do a consultation for
you at this time we're trying to grow this a little bit more. So you have
more access to more people to support is the, you, that team, the
universal design and assistive technology team.

82 "Holly Reiff" (1787569408)
00:10:58.404 --> 00:11:09.954
Housing, which is our Missouri housing partner and Missouri, 18 and this
year we took the remote support out of the assistive technology waiver
definition and made it its very own definition.

83 "Holly Reiff" (1787569408)
00:11:09.954 --> 00:11:17.874
So, it stands alone now as a different service type, which really helps
in breaking apart the 2 since there are some.

84 "Holly Reiff" (1787569408)
00:11:17.989 --> 00:11:21.359
Between them.

85 "Holly Reiff" (1787569408)
00:11:21.359 --> 00:11:34.289
So, a little bit about that remote support. So, what? And I've got a
little asterick here and That'll asterick is to remind me that remote
support and remote monitoring.

86 "Holly Reiff" (1787569408)
00:11:34.289 --> 00:11:37.709
Is not a virtual delivery of services.

87 "Holly Reiff" (1787569408)
00:11:37.709 --> 00:11:43.944
So, it's not going to be there as a way to I'm going to set up a zoom
call and learn how to cook for my direct care.

88 "Holly Reiff" (1787569408)
00:11:43.944 --> 00:11:53.334
Professional staff, remote support and remote monitoring is really a
system that includes sponsor sensors, response centers on demand.

89 "Holly Reiff" (1787569408)
00:11:53.849 --> 00:12:04.019
Support and in person support, when it's dispatched to increase
independent and be the backup system for folks who are trying to learn
independent skills.

90 "Holly Reiff" (1787569408)
00:12:04.019 --> 00:12:07.349
A great example of this is.

91 "Holly Reiff" (1787569408)
00:12:07.349 --> 00:12:11.399
You know, the whole family wants to go do something, except for.

92 "Holly Reiff" (1787569408)
00:12:11.399 --> 00:12:15.629
The individual, they're like, please, don't make me go bowling 1 more
time.

93 "Holly Reiff" (1787569408)
00:12:15.629 --> 00:12:20.459
I don't want to go well, the family could initiate remote sports thing.

94 "Holly Reiff" (1787569408)

00:12:20.459 --> 00:12:23.669
And let the individual have that a long time in the house.

95 "Holly Reiff" (1787569408)
00:12:23.669 --> 00:12:26.909
Why they still have the ability to check on the sensors.

96 "Holly Reiff" (1787569408)
00:12:26.909 --> 00:12:33.089
Respond to the person if they need support, um, as as they need it. So.

97 "Holly Reiff" (1787569408)
00:12:33.089 --> 00:12:38.369
A few reasons why we love remote support is that it really increases independents.

98 "Holly Reiff" (1787569408)
00:12:38.369 --> 00:12:46.019
But it also provides the confidence that someone needs if they've never had the opportunity to be alone before to really.

99 "Holly Reiff" (1787569408)
00:12:46.019 --> 00:12:52.169
Learn how to how to build those skills with still having someone there just in case.

100 "Holly Reiff" (1787569408)
00:12:52.169 --> 00:13:02.159
So, for the top 4 misunderstandings that we have about assistive technology and remote supports, is that.

101 "Holly Reiff" (1787569408)
00:13:02.159 --> 00:13:11.369
Assistive technology does not require a bit. It does not require a therapist evaluation. Now. I've got a little asterisk there.

102 "Holly Reiff" (1787569408)
00:13:11.369 --> 00:13:15.539
To say that if you're looking for a communication device.

103 "Holly Reiff" (1787569408)
00:13:15.894 --> 00:13:30.564
It is highly recommended that you talk with the speech therapist and work with a speech therapist, because they are specifically trained on what kind of communication devices will work best for that individual's type of language and where they're at and learning language.

104 "Holly Reiff" (1787569408)
00:13:30.774 --> 00:13:34.104
So, while a therapist evaluation is not required.

105 "Holly Reiff" (1787569408)
00:13:34.439 --> 00:13:48.539

To request, uh, 80 waiver services it is highly recommended if you're looking at communication devices. Now, if you have, uh, an individual, and as it so happens, some folks have, uh, uh, technology devices.

106 "Holly Reiff" (1787569408)
00:13:48.539 --> 00:13:52.949
That they use at school, but then the school doesn't allow them to take the device home for them.

107 "Holly Reiff" (1787569408)
00:13:52.949 --> 00:14:02.994
So, if that device is working at school, you can maybe use the waiver to get the same device at home. So that individual has the opportunity to communicate through all of their environments.

108 "Holly Reiff" (1787569408)
00:14:03.204 --> 00:14:11.184
So, if that's the case, and you already know which one's working, and you just need a, a 2nd, 1, because of the environment situation, or.

109 "Holly Reiff" (1787569408)
00:14:11.699 --> 00:14:17.969
They broke, um, you know, it is technology it does sometimes need to be upgraded. They do sometimes break.

110 "Holly Reiff" (1787569408)
00:14:17.969 --> 00:14:22.169
You know, then you wouldn't, you could skip the whole speech therapist part.

111 "Holly Reiff" (1787569408)
00:14:22.614 --> 00:14:36.894
Um, remote supports does require due process and an assessment remote support is not a surveillance system. It's not there to watch people, 24 7 that's not its purpose. Our intention. Um.

112 "Holly Reiff" (1787569408)
00:14:37.194 --> 00:14:37.704
um

113 "Holly Reiff" (1787569408)
00:14:38.009 --> 00:14:45.119
So, it it does need remote support our due process, though, because we want to make sure that individuals are.

114 "Holly Reiff" (1787569408)
00:14:45.119 --> 00:14:53.489
Available to know that all of the rights are still being covered and typically remote supports is is the least restrictive support.

115 "Holly Reiff" (1787569408)
00:14:53.874 --> 00:15:06.564

Um, a thing I want to also touch base on is that assistive technology, specialized medical equipment, and modifications can all work together and may have what appear to be some overlaps.

116 "Holly Reiff" (1787569408)
00:15:06.774 --> 00:15:10.974
They are very specific in separate services.

117 "Holly Reiff" (1787569408)
00:15:11.219 --> 00:15:15.239
But they might work together and 1 of the ways that they might work together is.

118 "Holly Reiff" (1787569408)
00:15:15.239 --> 00:15:25.559
The bathroom needs to be Pre, modified the door needs to be widened. There's not enough space to turn around a wheelchair in there. So we're gonna do a whole modification on the bathroom.

119 "Holly Reiff" (1787569408)
00:15:25.559 --> 00:15:33.713
Well, that's great but the individual also doesn't have the ability to open up the doors. So let's put an assistive technology automatic door opener in there as well.

120 "Holly Reiff" (1787569408)
00:15:33.713 --> 00:15:40.914
So, now you have a full, universally designed bathroom that not only the individual can use, but anytime he has friends over.

121 "Holly Reiff" (1787569408)
00:15:41.249 --> 00:15:51.059
They can use it too, so who can help because that was a lot of information and assistive technology is really so, um.

122 "Holly Reiff" (1787569408)
00:15:51.774 --> 00:16:05.454
So, specific to an individual, their environment and what they want their outcomes to be using the assistant technology, it's going to be a bit of a struggle sometimes. So Luckily we have support coordinators who have been trained as navigators.

123 "Holly Reiff" (1787569408)
00:16:05.874 --> 00:16:07.914
They can help support um.

124 "Holly Reiff" (1787569408)
00:16:08.219 --> 00:16:12.179
Navigating the field of assistive technology.

125 "Holly Reiff" (1787569408)
00:16:12.179 --> 00:16:24.204

The universal design and assistive technology team can help do those
consultations and you'll see, they're very long email address down there
as technology. 1st and universal design at dot. Gov.

126 "Holly Reiff" (1787569408)
00:16:24.594 --> 00:16:29.274
You also can help with specialized medical equipment and assistance.

127 "Holly Reiff" (1787569408)
00:16:29.609 --> 00:16:35.249
Assistive technology and home modifications and then our partners at
Missouri assistive technology.

128 "Holly Reiff" (1787569408)
00:16:35.249 --> 00:16:38.969
They work across the entire state they can help.

129 "Holly Reiff" (1787569408)
00:16:38.969 --> 00:16:52.139
With, um, doing the consultations, they have a lending library, they can
design assistive technology. They have a 3 printer, and I know Scout is
always happy to get in there and.

130 "Holly Reiff" (1787569408)
00:16:52.139 --> 00:17:04.829
Get in the lab and figure out. Okay how can I make this tool work for
this person? So, uh, they're also a great, great resource and I did see
some questions pop up in chat.

131 "Holly Reiff" (1787569408)
00:17:04.829 --> 00:17:08.789
So, let's see what we got a lot of great questions.

132 "Holly Reiff" (1787569408)
00:17:08.789 --> 00:17:14.579
So, Jennifer, yes, I do think the slides are available. Lisa is that.

133 "Holly Reiff" (1787569408)
00:17:14.579 --> 00:17:21.119
Is that accurate? Will they be part? They'll definitely be part of the
recording. You can always re, rewatch this again.

134 "Holly Reiff" (1787569408)
00:17:21.119 --> 00:17:25.349
Yeah, yes, yeah, we'll get we'll put those in. I'm.

135 "Lisa Nothaus" (1338823680)
00:17:25.349 --> 00:17:35.309
Somebody beat me to the 81 I'm going to go ahead and put on our education
and learning page. There's a link to the.

136 "Lisa Nothaus" (1338823680)
00:17:35.309 --> 00:17:44.759

Webinars, I'll add that in there as well. So, um, Jamie can respite be tied to remote support.

137 "Holly Reiff" (1787569408)
00:17:44.759 --> 00:17:59.184
So, as we do have a value based payment, that's available for respite and remote support. We haven't had anyone do it yet. Um, so if you have an idea, or you want to talk that through, would you please reach out to the team?

138 "Holly Reiff" (1787569408)
00:17:59.574 --> 00:18:04.374
And and let's talk about what that would look like, and make sure we have all the components in place.

139 "Holly Reiff" (1787569408)
00:18:04.649 --> 00:18:08.909
To support, um, that that individual.

140 "Holly Reiff" (1787569408)
00:18:08.909 --> 00:18:17.999
Because I do think there's space for it there. The only remote supports can't be done with shared living.

141 "Holly Reiff" (1787569408)
00:18:17.999 --> 00:18:24.749
Our group homes services are the only 2 services that it cannot be done with.

142 "Holly Reiff" (1787569408)
00:18:24.749 --> 00:18:34.259
Um, so process for remote support is going to be revisited annually. Um, we are looking at a.

143 "Holly Reiff" (1787569408)
00:18:34.259 --> 00:18:37.529
Kind of subcommittee for due process says.

144 "Holly Reiff" (1787569408)
00:18:37.529 --> 00:18:45.089
Due process looks looks for things that are are restrictive supports things that might impede someone's.

145 "Holly Reiff" (1787569408)
00:18:45.089 --> 00:18:57.864
Um, rights and what we found is that remote supports, does the opposite. It doesn't impede rights, it improves rights. So, um, sometimes the due process process for remote supports doesn't make sense.

146 "Holly Reiff" (1787569408)
00:18:57.864 --> 00:19:01.254
So we're looking at how we can better improve that system.

147 "Holly Reiff" (1787569408)

00:19:01.589 --> 00:19:07.919
To to make it better, um.

148 "Holly Reiff" (1787569408)
00:19:07.919 --> 00:19:15.179
So, okay, great. Um, Alicia asked for the links in the chat and it looks like you guys.

149 "Holly Reiff" (1787569408)
00:19:15.179 --> 00:19:20.009
Took care of that um, I would love.

150 "Holly Reiff" (1787569408)
00:19:20.009 --> 00:19:31.349
For the very long email to be changed to you to, at that damaged dot. Gov. And I will definitely see if we can make that happen because that is a really long email.

151 "Holly Reiff" (1787569408)
00:19:31.349 --> 00:19:38.609
So, you can obtain an 80 consultation.

152 "Holly Reiff" (1787569408)
00:19:38.609 --> 00:19:48.359
By reaching out to the team and scheduling time with 1 of them, they are all, um, information technology.

153 "Holly Reiff" (1787569408)
00:19:48.359 --> 00:19:54.629
Enabling technology, information specialists, which isn't a nationally recognized accreditation.

154 "Holly Reiff" (1787569408)
00:19:54.629 --> 00:20:07.974
For assistance, technology, um, so actually, all of our members also meet the waiver definition of who can provide that consultation. So you can always reach out to them to schedule that consultation.

155 "Holly Reiff" (1787569408)
00:20:08.454 --> 00:20:14.334
Typically, it's done via Webex, but if they happen to be in that area, they can certainly do it in.

156 "Holly Reiff" (1787569408)
00:20:14.629 --> 00:20:22.469
And as well, so there are some additional links about where to find the, the webinar.

157 "Holly Reiff" (1787569408)
00:20:22.469 --> 00:20:35.969
In the future, and there is, um, a section on our website 2 different sections for more information about assistive technology. So, in our damage homepage.

158 "Holly Reiff" (1787569408)
00:20:35.969 --> 00:20:41.039
If you go to information for support coordinators and TCM providers.

159 "Holly Reiff" (1787569408)
00:20:41.039 --> 00:20:49.079
Under the planning section of that page, you will find a rate and
resource guide.

160 "Holly Reiff" (1787569408)
00:20:49.079 --> 00:20:53.279
Uh, frequently asked questions for person system.

161 "Holly Reiff" (1787569408)
00:20:53.279 --> 00:20:57.149
And a remote support rate sheet. So, um.

162 "Holly Reiff" (1787569408)
00:20:57.384 --> 00:21:04.404
The rate and resource guide, just provide some basic information about
the different services, and how they work and who's available for those
services.

163 "Holly Reiff" (1787569408)
00:21:04.914 --> 00:21:15.924
Um, the person frequently asked questions really focuses on those 2
devices and how, and when they could be considered a restrictive support
and the.

164 "Holly Reiff" (1787569408)
00:21:16.289 --> 00:21:20.969
Remote support rate sheet. It's just that it's it's a a web.

165 "Holly Reiff" (1787569408)
00:21:20.969 --> 00:21:25.019
Workbook Excel workbook.

166 "Holly Reiff" (1787569408)
00:21:25.019 --> 00:21:34.439
And each tab along the bottom is a different remote support provider. So
the support coordinator can really just fill that sheet out in order to
understand what the.

167 "Holly Reiff" (1787569408)
00:21:34.439 --> 00:21:46.199
The cost would be, um, Lisa, thank you for dropping in the device loans
for Missouri. Assistive technology. Their page is amazing. I would really
recommend it. They offer.

168 "Holly Reiff" (1787569408)
00:21:46.199 --> 00:21:54.839
A plethora of services, including funding. They have a great, uh, funding
source called a micro loan. So if you needed a, Ah.

169 "Holly Reiff" (1787569408)
00:21:54.839 --> 00:21:58.079
Less expensive piece of technology equipment.

170 "Holly Reiff" (1787569408)
00:21:58.079 --> 00:22:05.609
You could actually get a small loan for that, and it helps build the
individual's credit. That's wonderful. Things. They're swapping. Shop
page is amazing.

171 "Holly Reiff" (1787569408)
00:22:05.609 --> 00:22:17.339
The US, uh, assistive technology consultation is not a requirement to get
assistive technology approved. Um.

172 "Holly Reiff" (1787569408)
00:22:17.339 --> 00:22:31.499
It is there when folks say, you know, we really think some technology
could be hugely beneficial here, but we're not really sure where to
start. That would be a great time to request a consultation or.

173 "Holly Reiff" (1787569408)
00:22:31.499 --> 00:22:45.299
Another example, might be, you know, we've used technology in the past
and it was kind of helpful, but it didn't quite meet everything we
needed. Um, that would also be a great time for a consultation but the.

174 "Holly Reiff" (1787569408)
00:22:45.299 --> 00:22:55.079
Assessment consultation is not required for assistive technology to be
approved through the waiver.

175 "Holly Reiff" (1787569408)
00:22:55.079 --> 00:23:02.219
Mm, hmm so there is not really a list of a T, well.

176 "Holly Reiff" (1787569408)
00:23:02.219 --> 00:23:08.699
Through Missouri, assistive technology in their lending library they do
have a list.

177 "Holly Reiff" (1787569408)
00:23:08.699 --> 00:23:17.909
Um, there's also a great let me drop this in the chat for you guys too.
It's a great resource called a bridging apps.

178 "Holly Reiff" (1787569408)
00:23:17.909 --> 00:23:24.569
And what it does is, it works through those same.

179 "Holly Reiff" (1787569408)
00:23:24.894 --> 00:23:39.744
Things we talked about before when considering assistive technology, the
tools, the environment who's going to be, you know, who's going to be

using it what's their comfort level with the system? Technology? Is there any special considerations? They might need?

180 "Holly Reiff" (1787569408)
00:23:39.744 --> 00:23:41.154
Like, they can't.

181 "Holly Reiff" (1787569408)
00:23:41.339 --> 00:23:54.089
Use a touch pad due to dexterity, for example. Um, and it walks through all those pieces and then it provides a list of of application applications that you would put on a phone or tablet.

182 "Holly Reiff" (1787569408)
00:23:54.089 --> 00:23:57.089
Are your desktop computer laptop.

183 "Holly Reiff" (1787569408)
00:23:57.089 --> 00:24:06.029
Um, that meet your requirements and meet what the outcome might be. So, that's always a great resource that we go to a lot as well.

184 "Holly Reiff" (1787569408)
00:24:09.749 --> 00:24:18.209
See, if you ask a question, I haven't, um, can a person that is wanting to run their 1st apartment at home.

185 "Holly Reiff" (1787569408)
00:24:18.209 --> 00:24:22.619
Use home repairs and modifications, so.

186 "Holly Reiff" (1787569408)
00:24:22.619 --> 00:24:29.309
In our assistant. All right in our environmental adaptations.

187 "Holly Reiff" (1787569408)
00:24:29.309 --> 00:24:39.329
Waiver definition, it does not recruit home repairs. It would include modifications that they need. Um, so for example, if they.

188 "Holly Reiff" (1787569408)
00:24:39.329 --> 00:24:53.219
Need the doors wide or the hallway and are the kitchens accessible or the back end is not accessible those could be modified through, but it does not cover. Home. Repairs are wear and tear are preventative.

189 "Holly Reiff" (1787569408)
00:24:53.219 --> 00:25:02.309
Services okay.

190 "Lisa Nothaus" (1338823680)
00:25:02.309 --> 00:25:07.319
And Holly you and I had talked before about where people can find what different.

191 "Lisa Nothaus" (1338823680)
00:25:07.319 --> 00:25:10.619
Um, devices, or technology is out there.

192 "Lisa Nothaus" (1338823680)
00:25:10.619 --> 00:25:22.079
And you mentioned the Missouri assistive technology project, or which I
think they just go by Missouri assistive technology. Now they're not
project anymore. But if you will go to their main web page.

193 "Lisa Nothaus" (1338823680)
00:25:22.079 --> 00:25:29.309
Um, but I think we dropped the link in there to the loan part of it the
equipment technology technology consortium.

194 "Lisa Nothaus" (1338823680)
00:25:29.309 --> 00:25:41.159
On the right hand side, there's ATC device catalogs and if you will click
on each 1 of those links, they have additional information for AIDS for
daily living communication devices.

195 "Lisa Nothaus" (1338823680)
00:25:41.159 --> 00:25:46.679
Um, computer access, it goes all the way down vision hearing switches.

196 "Lisa Nothaus" (1338823680)
00:25:46.679 --> 00:25:59.279
iPad app there is a ton of information there that you can explore. So if
you're new to assist the technology and it's funny because I remember,
like I said, I have a daughter with a developmental disability.

197 "Lisa Nothaus" (1338823680)
00:25:59.279 --> 00:26:12.624
Um, young adults, and when we 1st started, we would go out and try to
find catalogs that's back when they would mail out catalogs, just full of
information. Um, it is right here at your fingertips. Now what?

198 "Lisa Nothaus" (1338823680)
00:26:12.624 --> 00:26:18.444
Missouri assistive technology has provided electronically. It's a great
deal of information.

199 "Lisa Nothaus" (1338823680)
00:26:18.779 --> 00:26:26.009
And also sparked some ideas about things that maybe you're you may not
even realize, like, oh, my gosh. You didn't know it. It existed.

200 "Lisa Nothaus" (1338823680)
00:26:26.009 --> 00:26:31.499
And that would come in really handy. Um, I have an aunt that has, um.

201 "Lisa Nothaus" (1338823680)
00:26:31.499 --> 00:26:37.019

Has been living with and asked for many, many years and some of the things that.

202 "Lisa Nothaus" (1338823680)
00:26:37.019 --> 00:26:44.489
That are available today weren't available when she 1st got her diagnosis and we're talking about simple stuff.

203 "Lisa Nothaus" (1338823680)
00:26:44.489 --> 00:26:51.119
Helping folks get in and out of a vehicle with 1 of the, the grippers that fit into the car, right?

204 "Lisa Nothaus" (1338823680)
00:26:51.119 --> 00:26:59.759
Um, the loops that you can put up on the on the handle, the grab handle, getting in the car that extends the, the graph, they can pull themselves that.

205 "Lisa Nothaus" (1338823680)
00:26:59.759 --> 00:27:10.469
Some of the most simplest of things that we don't think about. And I think you even mentioned earlier that it's not just for people with disabilities. We all use assistant technology. In some way. You mentioned the, um.

206 "Lisa Nothaus" (1338823680)
00:27:10.469 --> 00:27:25.284
kevin rack the push or the polar that you can get those on on amazon for less than ten dollars i think those are things that that we all use so i definitely would encourage folks to go out and explore what else is

207 "Lisa Nothaus" (1338823680)
00:27:25.284 --> 00:27:25.914
out there

208 "Lisa Nothaus" (1338823680)
00:27:27.054 --> 00:27:41.814
They've got it broken down on the big thing. Now with that seems like what iPad apps are out there and they have, you can click on that little link and it will take you into note taking communication hearing organization, reading and writing and and on and on.

209 "Lisa Nothaus" (1338823680)
00:27:41.814 --> 00:27:42.204
So.

210 "Lisa Nothaus" (1338823680)
00:27:42.539 --> 00:27:47.579
I encourage folks to just explore, get out there and look and see what's there.

211 "Lisa Nothaus" (1338823680)
00:27:47.579 --> 00:27:50.849

And then, I think on your, um.

212 "Lisa Nothaus" (1338823680)
00:27:50.849 --> 00:28:01.469
On your slide about where to gloves the with the star, the support star I
love that star because it walks you through. It's not just something that
we have to depend upon the waiver for.

213 "Lisa Nothaus" (1338823680)
00:28:01.469 --> 00:28:09.629
I love exploring that star around to the different areas of places where
people can go to get assistance to get that. So.

214 "Holly Reiff" (1787569408)
00:28:09.629 --> 00:28:16.229
Yes, and you know, I I found I was trying to do a webinar.

215 "Holly Reiff" (1787569408)
00:28:16.229 --> 00:28:20.519
And I was trying to figure out how many applications were released.

216 "Holly Reiff" (1787569408)
00:28:20.519 --> 00:28:23.789
Um, each like each year.

217 "Holly Reiff" (1787569408)
00:28:23.789 --> 00:28:27.179
For, uh, Google Play and.

218 "Holly Reiff" (1787569408)
00:28:27.179 --> 00:28:30.569
At the app store and.

219 "Holly Reiff" (1787569408)
00:28:30.569 --> 00:28:33.779
What I found was that daily.

220 "Holly Reiff" (1787569408)
00:28:33.779 --> 00:28:38.939
About 6,500 apps are released per platform, so.

221 "Holly Reiff" (1787569408)
00:28:38.939 --> 00:28:48.329
There's no way to keep up with the amount of technology and assistive
technology that's coming through. So if you find a need.

222 "Holly Reiff" (1787569408)
00:28:48.329 --> 00:28:52.139
I suggest you work backwards from the need. Yeah. Um.

223 "Holly Reiff" (1787569408)
00:28:52.139 --> 00:28:58.229
That's going to get you to the best solution, um, versus trying to.

224 "Holly Reiff" (1787569408)
00:28:58.229 --> 00:29:04.949
Learn what every new technology and what every new technology support is
out there. I promise that will.

225 "Holly Reiff" (1787569408)
00:29:04.949 --> 00:29:08.969
That will drive you mad right? Changes every day.

226 "Lisa Nothaus" (1338823680)
00:29:08.969 --> 00:29:18.929
Yes, well, probably, I am so appreciative that you, you agreed to do this
webinar with us. The information that I heard you do earlier this year
this was so relevant and made such sense.

227 "Lisa Nothaus" (1338823680)
00:29:18.929 --> 00:29:32.184
I think folks have questions and maybe don't know where to go. So, if
you're on the call today, and you're working with those families and
individuals that are kind of looking at assistive technology, be sure to
share this with them, have them reach out to the resources.

228 "Lisa Nothaus" (1338823680)
00:29:32.184 --> 00:29:38.904
That holley shared with us today and help them explore some that might
come into their life and make their life a little easier.

229 "Lisa Nothaus" (1338823680)
00:29:38.929 --> 00:29:48.569
So, real quickly, we're going to go ahead and wrap up but Mark your
calendar now, the next low DVD and new webinar will be on July 25.

230 "Lisa Nothaus" (1338823680)
00:29:48.569 --> 00:29:53.489
1230 to 1, lunch and learn, thank you so much. Holly appreciate it.

231 "Holly Reiff" (1787569408)
00:29:53.489 --> 00:29:58.289
Thank you so much for having me on. I, I always enjoy talking about
technology.

232 "Lisa Nothaus" (1338823680)
00:29:58.289 --> 00:30:02.016
Thanks everybody.
