

Improving lives THROUGH
supports and services
THAT FOSTER self-determination.

8/24/23

**National Core Indicators (NCI)
Sarah Taub Memorial Webinar - NCI 2021-2022**

Wednesday, September 6, 2:00

NCI is hosting a webinar to showcase the key findings about access to services, community inclusion and participation, health and wellness, rights and respect, and person-centered planning across the populations who participate in NCI. Discussion will explore trends in these outcomes across service users, including which outcomes are promising and in need of improvement, as well as outcomes that differ across populations. The findings shared in this webinar will improve understanding of where there are gaps in outcomes for service users and can inform long-term services and supports (LTSS) policy and practice.

Presenters:

- Rosa Plasencia, Director - National Core Indicators - Aging and Disabilities, ADvancing States
- Dorothy Hiersteiner, NCI Co-Director, HSRI
- Stephanie Giordano, NCI Co-Director, HSRI
- Laura Vegas, Director of Quality Initiatives and Supporting Families, NASDDS
