

1/2/24

Role of Person-Centered Planning for Employment Support

Tuesday, January 9, 2024
2:00-3:00

The [Disability Employment Technical Assistance Center](#) (DETAC) and the [National Center on Advancing Person-Centered Practices and Systems](#) (NCAPPS) will host a webinar focused on strengthening the connection between person-centered planning and advancing competitive, integrated employment.

Person-centered planning is designed to learn about the choices and interests that make up a person's idea of a good life. NCAPPS will highlight five competency domains, also known as skill areas, as a guide for human service agency staff facilitating person-centered planning. The panel will also review these skill areas in the context of real-world examples to support discovery, exploration, and planning for employment support.

Participants will:

- Learn how person-centered planning and competitive, integrated employment are connected.
- Understand elements of the five competency domains (skill areas) for person-centered planning.
- Apply these elements to concrete strategies to maximize successful employment support.
